

COLORED HOSIERY TREND CONTINUES

The colored hosiery trend continues. You may not care for wine, green and navy stockings and you may cling stubbornly to your good old beige tones, but there's no denying that color has crept into the stocking box, in spite of us.

A recent hosiery fashion show accented stockings to match the color of your costume, for both daytime and evening.

The hosiery in the usual sheer chiffons went in strong for wine and dark green tones, to match the favorite renaissance colors of the season.

Dark red and jug brown were other daytime colors sponsored. For evening wear, delicate pastels were featured, in colors to match the gown.

Petal pink, Alice blue and ice green were among the new colors shown. The colored daytime stockings had black heels and toes, to accentuate the sheer appearance of the hosiery.

As Needle in Haystack

A strange accident happened to a strange craft in the Bay of Biscay in 1878. Cleopatra's Needle, a 200-ton bellisk, was being towed—on a giant iron cradle supported by pontoons—from Egypt to England by the S. S. Olga. During a storm the cables snapped and the craft, despite its great size, was not found for more than two months.—Collier's.

DOCTORS KNOW

Mothers read this:

THREE STEPS TO RELIEVING CONSTIPATION

A cleansing dose today; a smaller quantity tomorrow; less each time, until bowels need no help at all.

Why do people come home from a hospital with bowels working like a well-regulated watch?

The answer is simple, and it's the answer to all your bowel worries if you will only realize it: many doctors and hospitals use liquid laxatives.

If you knew what a doctor knows, you would use only the liquid form. A liquid can always be taken in gradually reduced doses. *Reduced dosage is the secret of any real relief from constipation.*

Ask a doctor about this. Ask your druggist how very popular liquid laxatives have become. They give the right kind of help, and right amount of help. The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara—both natural laxatives that can form no habit, even in children. So, try Syrup Pepsin. You just take regulated doses till Nature restores regularity.

Formals of Choicest Silk Taffeta

By **CHERIE NICHOLAS**

FOR the very elegant formal gown silk taffeta of most exquisite quality registers as first choice among women of patrician taste. The idol of the hour is silk taffeta in white and silver.

This flair for white taffeta is confirmed at every high-society formal gathering, so far this winter. The vogue includes versatile types, silver striped or dotted white taffeta being among the favorites. Matelasse white silk taffeta presents a pleasing diversion from the metallized effects.

Plain white taffeta starred with rhinestones is also a fabric highlight. Designers are playing up quantities of fancy stitching not only in immediate fashions but indications are that spring styles will make stitching an outstanding trimming feature. White silk taffeta designfully stitched with silver is one of fashion's happiest gestures, in answer to the call of the mode.

The illustration pictures a debutante who attends the opera in a white evening dress of superlively silver faconne taffeta. It has a deep V front and back and an unusual shoulder treatment. A jeweled clip and bracelet accent the simple splendor of this silk gown.

The all-black evening gown is given new prestige when it is fashioned of pure silk taffeta of highest quality as dramatically as is the model pictured. It is the very personification of elegance. Just how many yards of gleaming taffeta it took to achieve the bands of self-ruching on the skirt and bodice and for the graceful lei in the same ruching which encircles the throat and drops to the waistline at the back, we would not venture to say, but whatever the amount, it's worth it to produce so striking, so fetching a gown as is this. Note the bracelets worn over the long black gloves.

For the evening gown of exclusive men, brocades in white with either metal or color or both for the most gorgeous types, are much sought after by those who love the loveliest. Silvered white moire also is a great favorite in the realm of handsome evening silks.

Leading designers are also turning the spotlight on very exclusive looking silk prints, making them up in jacket ensembles of utmost formality in many instances. The

gown is fashioned with extreme décolletage, the skirt touching the floor, or the new street length which is fashion's latest whim for the dinner gown. Usually the jacket is of the basque genre, varied now and then with a smart bolero model. Both printed taffeta and printed crepe feature for this new trend in the formal realm.

In citing best-loved silks for the formal gown, sleek, suave flattering satin must be mentioned. White satin is outstanding and pink comes next. For the most part these regal satins are made up with a sophisticated simplicity that is very striking.

Then there are the lovely white silk crepes and chiffons. Their high standing in the array of lovely materials for dresses to wear to formal functions is unquestioned. Some white crepes are starred with rhinestones. Others stand for beauty unadorned. Sans trimming of any sort they depend on a sparkling Juliet cap and a glittering evening bag or a jeweled belt plus elaborate sandals for effect.
