### SAVINGS AND LOAN ASSOC. DECLARES DIVIDEND

A dividend at the rate of 3 1/2 per cent per annum has just been declared by the Washington Savings & Loan Association of Hillsboro. This is its twenty-second consecutive semi-annual dividend. This rate is one half of one per cent larger than paid during the last two semi-annual periods. The Board announced that earnings have been increasing for the past year and have reached the point where it was felt an increase in interest on savings accounts was fully justified.

The Board ordered a substantial amount to be added to the reserves which was found available even after paying the increased dividend. This has been an established practice of the Association since its organization.

"Home building", said J. M. Person, manager, "will undoubtedly reach proportions never before attained. The combination of an acute housing shortage together with the large supply of funds available for home loans is ideal for rapid development of the house construction business," he said.

Washington Savings & Loan association is a strictly home organization which was organized here in 1925 and bears the unique record of having come right through the depression without missing a single dividend. In addition to J. M. Person, who was founder of the institution and has been its manager since organization, the following men make up its board of directors: Geo. G. Hancock and D. D. Bump of Ferest Grove, Oregon and E. L. Johnson and J. O. Robb of Hillsboro.
