USED MAJESTIC Radio in good condition. Paterson Furniture Store.

Mrs. Lois Barnes of Dallas, Texas, is here to spend several months with her mother, Mrs. Jim Aubrey.

Judge W. A. Harris is able to be about again after his recent illness.

J. W. Brown is getting together his stock for the new furniture store which he will soon open on Third street next to the Eagle office.

The car stolen from Joe Wangler, former Vernonia resident now residing in Burns, was found in Idaho in good condition, according to word received by his sister, Julia Wangler.

BUCKS AND KICKS

"What kind of an engine have you in your car?"
"A donkey engine, I guess. It's awfully stubborn."

POOR FISHING

Mrs. W.—What! You have been fishing all day and only have an old boot to show for it?
Mr. W.—Well, I fished for you for three years and all I got was a lemon.

Dry Season Causes Forest Fire Hazard

A rigid enforcement of the forest law of the state which prohibits the throwing away of lighted material along the highways of the state was announced today by State Forester J. W. Ferguson. Not only have orders been issued from the forestry department to all wardens for a strict enforcement of the law, together with the inauguration of special road patrols in certain hazardous areas of the state, but Charles P. Pray, superintendents of state police, has heartily endorsed the move and pledged his support and cooperation through the issuance of orders to his personnel to make a special effort to stop this practice. "We are now entering the most critical period of the fire season," stated Mr. Ferguson, "for records of past years show that the most disastrous fires occur after the first of August. This year there is a definite increase in the hazard over past years because of a favorable spring with frequent rains which has resulted in an unusually dense growth of grass and weeds. With the coming of the hot, dry weather and the drying out of this growth, it has

resulted in one of the most hazardous fire situations that has faced the department in a number of years. Smokers are responsible for nearly a third of all man-caused fires which have occurred on lands coming under the jurisdiction of this department, and the fact that the major portion of them originate along the highways of the state indicates that is is the traveling motorist who is to blame.

"This law which prohibits the throwing away of lighted material has been in effect for the past eleven years and an intensive educational campaign has been carried on to inform the public of the fact and to secure its cooperation. Nevertheless, the number of these fires is far too great and a determined effort will be made to reduce them through law enforcement."

County Fair Is Soon to Begin
