

Sunset Silhouette on California Strand

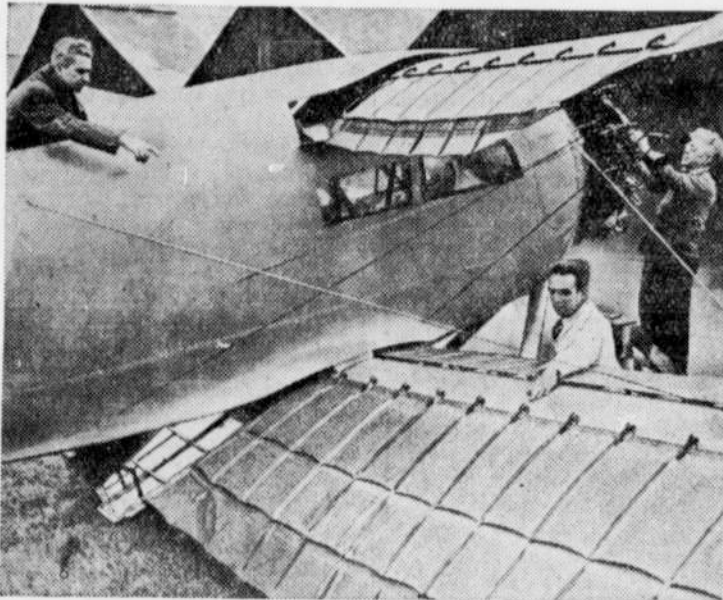

Coronado's Silver Strand, near San Diego, Calif., is an autumn and winter playground for America's social register set. In the above photo, three of the younger set are shown on the famous strand at eventide.

Find Shrub Oil Resembling Whale Oil

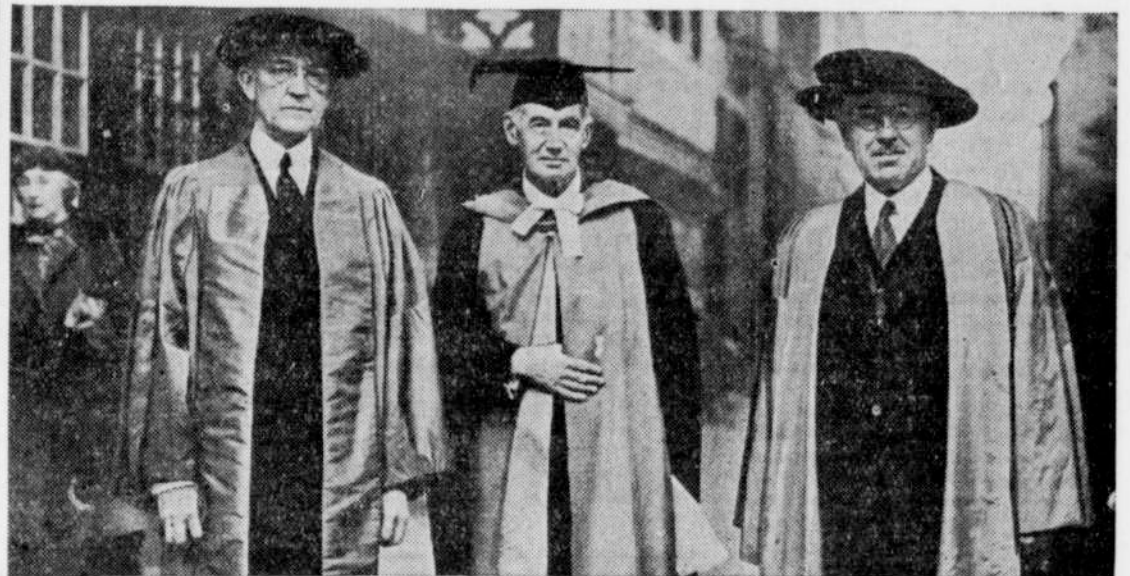

Dr. G. S. Jamieson (left) and Dr. R. S. McKinney of the Department of Agriculture as they experiment with "jojoba oil" in the Department of Agriculture laboratory in Washington, D. C. The oil, similar to that found in the whale sperm, was discovered by the two scientists in the jojoba shrub.

New Plane Folds Wings for Speed

The new "Varivol" plane, invented by Jacques Gerin of Paris, France, which folds its wings while in flight to increase its speed. The maximum speed is 300 kilometers an hour. The full wing surface is 28 square meters and the reduced surface is 7 square meters. The plane weighs 1,300 kilograms.

Award American Ambassador Degree at Oxford

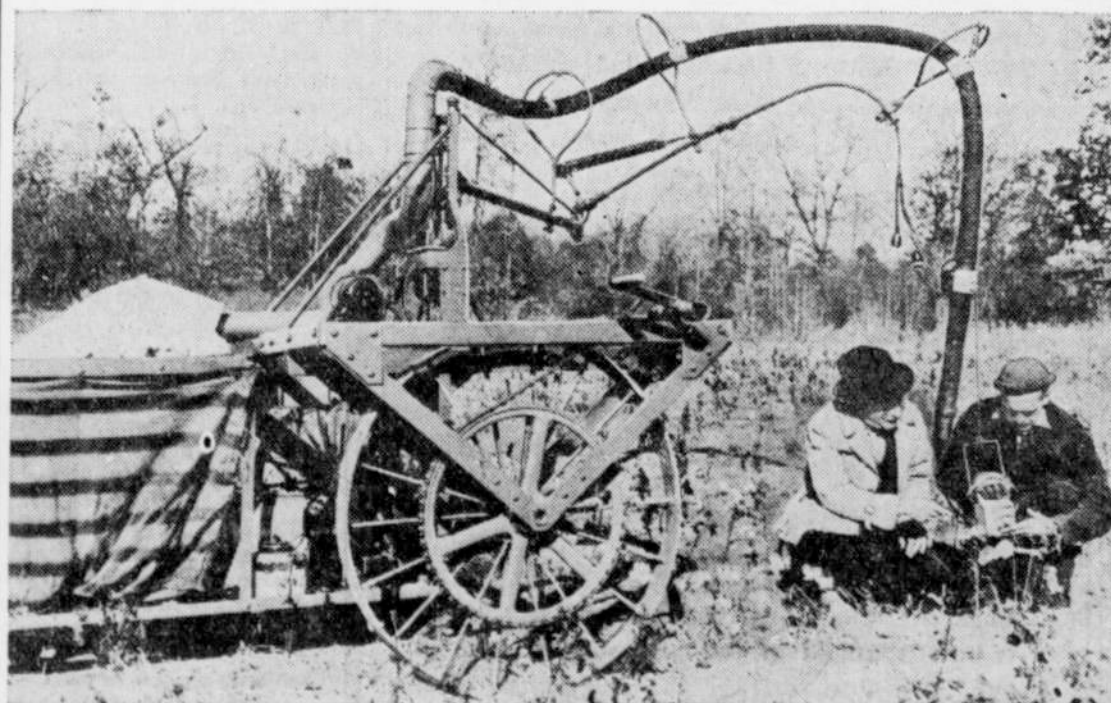

In a colorful ceremony at Oxford university in England, Robert W. Bingham, United States ambassador, received the honorary degree of doctor of civil law as a gesture of friendship with the United States and recognition of personal merit. Shown just before the ceremony, are (left to right) Ambassador Bingham; Dr. Cyril Bailey, the public orator; and Joseph A. C. Avenol, secretary general of the League of Nations, who also received honorary degrees.

WINS NOBEL AWARD

Youthful Dr. Carl Anderson, California Institute of Technology scientist who was named a co-winner of the Nobel prize in physics. He will share the award and the prize money with Dr. Otto Hess, famous physicist of Berlin, Germany. Photo shows Dr. Anderson examining electrically-operated camera which photographed the disintegration of atoms.

New Cotton Picker Works Twice as Fast as Man

Bobbing up as a serious rival to the Rust brothers, fellow-Memphians L. C. Stukenborg, mechanically-minded farmer whose land is near Memphis, invented this new cotton picker, said to be simpler to operate than the Rust apparatus. One of the machine's merits is said to be its cleanliness of operation. It picks cotton twice as fast as a human.

TO WED "TEDDY'S" KIN

Miss Mary Lowe Gaddis of Milton, Mass., whose engagement to Kermit Roosevelt, Jr., grandson of the late President Theodore Roosevelt, was announced by her mother, Mrs. Avery Gaddis. Miss Gaddis, who made her debut last winter, is a sophomore at Radcliffe college at Cambridge, Mass. Mr. Roosevelt will be graduated from Harvard in June.
