War Admiral, Jock Worked Out Perfect Getaway at Barrier

JUST a note to one of the old folks at home:

Dear Red—Pop Kurtzinger's wild-thumping heart burst six buttons off his vest when his boy Charley came galloping down to the wire atop the winner. The beauty and chivalry of Kaintucky were so elated that they only jacked up prices 500 per cent for the firemen who missed the first train out, but—

Well, Red, that's why an admiring friend who hasn't seen you for a long while is writing this letter. It was a swell Derby, that one so easily won by War Admiral, but there was something missing. That was you, Pop. All the while that little brown colt—really he's little only as compared to such big red giants as yourself—was shaking those four feet to make every post a winning one I kept whispering to myself. What I was saying was, "Gee, but I wish his old man could see him now."

Lots of other folks were saying the same thing, too, Red. You needn't think because you're stuck off on a green pasture a couple of counties away that honest-to-goodness people have forgotten you. Ever since the race was run I've heard hundreds of them saying the same thing. "My, my," they've been saying, "he looked just like Man o' War."

War, didn't he? Actually they're a little wrong on that, though, Red, if they're speaking of mere outward appearances while the kid's standing in his stall. Maybe—because of what I hear about the way you've been spending your last fifteen years you're sort of like the old woman in the shoe and get mixed up about the younger ones now and then—I'd better set you right about him.

War Admiral, this kid of yours, has a nice easy stride, pretty close knit conformation and may be a trifle light in back. Carries his head like you but otherwise he takes after his mammy's family in looks. His mammy, you may have to be reminded, was a little mare named Brushup and her daddy was Sweep.

Once out on the track, though, you can't miss him as a Man o' War. Walks up to the barrier just like you did, kind of proud and disdainful and wondering at the nerve of those other gee gees even thinking they could run along with him for money, marbles or the next peck of oats.

Just like you he's full of pep and vinegar at the barrier, too, but I wouldn't take too seriously those stories you may read about him being a bad actor there. Actually what happened there was that your kid and Pop Kurtzinger's boy, Charley, were giving the first evidence of that perfect teamwork which won them the race in the second best time in Derby history.

What Charley and your kid really were doing at the post when everybody thought they were cutting up was thinking and acting. They were wheeling in and out of their stall because they wanted to be on their

toes when the break came. If they'd stood there nice and flatfooted maybe it would have looked nice in a book of manners but where would they have been when the wire went up? Probably still standing there, eh Red? Or maybe piled up over the fence in the infield.

So Charley and your kid were putting on the act. They figured that if they were a little tough lining up the starter'd make his move as soon as he got them in line for once. That's what happened and from then on it was just like as if you were doing it yourself, Red. Heel-fly, who's always a mite impatient at the start, maybe had a head lead for the first hundred yards. After that your kid was never in trouble.

Maybe Kurtzinger did go to bat on him once, turning into the straight-away, but it wasn't even necessary. Pompoon, who looked like a much better horse than he did in the Wood Memorial, was challenging then, but even if this son of Pompey hadn't been carried wide it wouldn't have made much difference. Your kid only won by two lengths but he won well in hand and he could have made it six.

Won at a good price, too, Red even considering the field of twenty was one of the best ever to start in Kentucky. Maybe \$5.40 winners seem like long shots to you with your record, but 8 to 5's not peanuts.

NOT IN THE BOX SCORE:

STEVE CULLINAN, possibly Princeton's best center in the past decade, has turned down a pretty offer to take Art Lane's place as coach of the Harvard Scrubs. No more aid for the Crimson on how to stop the Tiger attack—as last fall—for Lane graduates from Harvard Law and will take a job with a New York firm . . . Val Picinich, Clide Dudley, Walter Shaner and Frank DeHaney, all of whom performed in baseball's big-time short seasons ago, are members of the Elizabeth branch of the Motion Picture Operators' union.

Manager Jimmy Wilson had a swell article called "Fixing the Phillies" in a recent issue of a sports magazine . . . Coach Fritz Crisler is reported as feeling the 1937 Princeton football team will be fuller of fight than any Tiger team since 1932 . . . Class in Kentucky Derby history—The smallest purse ever offered in this stake was in 1875. The value to the winner then, the first year the race ever was run, was \$2,850. In 1928 Mrs. John D. Hertz received \$55,375 when her Reigh Count came home in front. From 1875 to 1895 the race was at a mile and a half. In 1896 it was changed to the present mile and a quarter. Falso, defeated in the 1879 renewal by Lord Murphy, sired three winners of the Derby. They were Chant, in 1894; His Eminence, in 1901, and Sir Huon, in 1906.

Grimm Is Happy Over Frey's Fine Showing

Charley Grimm gives Cubs dug-out visitors rave notices about Lonny Frey, the young shortstop obtained last fall when a new era dawned in the Brooklyn front office.

The Chicago manager particularly likes Lonny's competitive spirit—which, no doubt, is news to the Dodgers' directors. FARM TOPICS

SHOULD TURN EGGS WHILE INCUBATING

Poultry Expert Cites Four Fundamental Factors.

By Dr. W. C. Thompson, Poultry Husbandman, New Jersey Experiment Station.—WNU Service.

Temperature, ventilation, moisture and change of position are the four fundamental factors in obtaining good hatches in incubators.

Changing the position of the embryos during the three weeks of development within the shell is very important. Mother hens, incubating their setting of eggs on the old-fashioned nest, usually move the eggs beneath them at least twice during the day, thus tending to equalize the exposure of each egg to the conditions of temperature, fresh air and moisture, all of which must be uniformly applied to each egg.

In the operation of the modern incubator, man can well copy this rule of the hen. Experimental evidence seems to indicate that he can go the hen one better by doubling the number of turnings during each 24-hour period.

If hatching eggs are changed in position once every six hours, optimum results, other things being equal, will generally result. It is partly a matter of preventing the sticking of the developing embryo to some one position within the shell, and partly a matter of equalizing the exposure of the respective eggs to the conditions which will bring about normal, natural embryonic growth.

Most modern incubators are provided with devices for turning eggs. It is important to be regular and consistent in this practice. It is one of those many small items which, taken collectively, spell successful hatching and chick production.

Warm Soil Is Necessary to Grow the Sweet Corn

With jaded winter appetites hungering for such spring dishes as roasting ears, home and commercial vegetable gardeners are advised that no definite date can be given for the safe planting of sweet corn, since the seed will not germinate or grow until the soil is fairly warm, according to B. L. Weaver, of the department of horticulture, University of Illinois, college of agriculture.

Planting a number of varieties which vary as to time of maturity is a recommended method of obtaining a succession of roasting ears throughout the season. A good succession of white corn may be had by planting Howling Mob, Early Evergreen, Stowell's Evergreen, Narrow Grain Evergreen or Country Gentleman at the same time. A succession of yellow varieties may be obtained by using Purdue Bantam, Golden Bantam, (Bancross), Golden Cross Bantam and Yellow or Golden Evergreen.

Yield and uniformity are much greater where hybrid seed is used. Hybrids, because of their vigor and possibly because of some inherent resistance, may be less susceptible to bacterial wilt than open-pollinated types.

Discing for Lespedeza

Korean lespedeza may be seeded safely in oats by discing or drilling the seed into the soil with the oats or after the oats have been seeded. The method of seeding may be similar to that of red clover in wheat, with oats or in thin pastures, says the Indiana Farmer's Guide. Most seedings are broadcast and covering more than an inch in depth may prohibit germination of the lespedeza. If the seed is to be discing into the ground with oats, cover as lightly as possible and at least under an inch in depth.

Stomach Gas So Bad Seems To Hurt Heart

"The gas on my stomach was so bad I could not eat or sleep. Even my heart seemed to hurt. A friend suggested Adlerika. The first dose I took brought me relief. Now I eat as I wish, sleep fine and never feel better." —Mrs. Jas. Filler.

Adlerika acts on BOTH upper and lower bowels while ordinary laxatives act on the lower bowel only. Adlerika gives your system a thorough cleansing, bringing out old, poisonous matter that you would not believe was in your system and that has been causing gas pains, sour stomach, nervousness and headaches for months.

Dr. H. L. Shoup, New York, reports: "In addition to intestinal cleansing, Adlerika greatly reduces bacteria and colon bacilli." Give your bowels a REAL cleansing with Adlerika and see how good you feel. Just one spoonful relieves GAS and stubborn constipation. At all Leading Druggists.
