Women Urged to Plan Now to Attend Eagle-Joy Theatre Cooking School on Screen Here

Women throughout the community are planning to attend the friendly class for home-makers, the Motion Picture Cooking School, scheduled to open at the Joy Theatre, Thursday, June 2.

A welcome invitation to the wise is sufficient, and the only invitation needed for this novel cooking school is that extended to every woman by The Eagle and Joy Theatre. There is no charge to see any of the showings of "Star in My Kitchen".

Because this paper stands ready to sponsor all progressive developments, particularly when they affect the homes of the community, it is presenting this motion picture romance of home-making entirely free.

"If I could only see exactly how she fixes and handles her pie-crust."

That comment has been heard from beginners and from more experienced cooks at many cooking schools. Craning necks and anxious eyes, trained on the stage from the sides and back of the demonstration hall, have failed to catch all of the important steps in pastry-making and other culinary arts. Only the early birds in the very front row had a close-up of the stage in the past, and even they couldn't peer directly into the mixing bowl.

Now the wizardry of the camera has solved the problem, making it possible for every person in the Joy Theatre to share each fascinating stage of the planning, measuring, blending, and baking in practical, up-to-the minute kitchens.

Keeping pace with the baking, roasting and frying, a series of salads and frozen delicacies will parade in and out of the adaptable electric refrigerator, which will reveal its host of possibilities for simplifying labor and marketing, and contributing to good health and good food.

What to do with left-overs? How to take the gloom out of laundry day? How to save time, energy and temper in meal preparation? How to be attractive in spite of the daily rush? How to make the pie crust that men love to eat? How to give first-aid to fallen cakes?

It won't be necessary to ask the questions, for expert home specialists have anticipated these very problems. They know what bothers many an experienced housekeeper, because it is their job to know and to counsel helpfully.

Fun, novelty and entertainment are joined throughout the feature picture, for it is always fair weather when neighborly cooks get together. Home-making has a universal appeal, and every woman is eager to learn the newest news of her craft.

Cooking, romance, modern kitchens, and clever actors and actresses do not tell the complete story of this 1938-model cooking school. The picture is a whole laboratory of modern ideas and wise council, touching on latest developments in home equipment and accessories, including laundry methods, ways to prepare left-overs, beauty secrets, hints on saving time and labor, and fresh (Continued on page 12.)

Yes sir!

You'll want to be careful tomorrow! Carry a rabbit's foot in your hand bag or on a string around your neck. Tomorrow is Friday, the 13th. Tomorrow is one of the few really unlucky days of the year when superstitious whites and ordinary colored folks tread lightly, and most of them tread little.

Keep away from ladders, mirrors, black cats and stuff and things if you'd keep your neck in place and life in your system. Tomorrow's a bad 'un, it's Friday, the 13th.

The trip will extend for anyway a year and perhaps 15 months. Mrs. Berg, now teaching in Burns, will arrive here this evening, and as soon as her husband completes his work here, preliminary plans will be made. Mr. and Mrs. Berg will get away from Seattle aboard a tramp steamer about June 10. students again studying language, customs, means of livelihood and particularly the schools and school systems.

They expect to spend a short time with the Lapps above the Arctic Circle and to visit in Hammerfest, the World's northernmost incorporated community.

Before leaving the peninsula the Bergs plan to traverse it as thoroughly as possible by train, boat, bicycle and other means at hand, stopping when and where their fancy might dictate.

Both Mr. and Mrs. Berg have done considerable hiking. Mrs. Berg received much of her experience in the Black Hills of South Dakota. Mr. Berg's earlier experiences took him to New Brunswick, Canada, to (Continued on page 12.)
