### Mrs. Olin Hostess to Study Club

Mrs. F. R. Olin was hostess to members of the Vernonia Study Club at their regular meeting on Thursday, May 25th, at her home on Oregon-American hill. This proved to be one of the most interesting programs of the year as Mr. Vincent Gowen, Episcopal minister and teacher in the Philippine Islands was the guest speaker and gave an informative talk on the subject, "Philippine Independence." Mr. Gowen, son-in-law of the Olins, has lived in the Islands for a number of years and is thus very familiar with its peoples. He described the background of the inhabitants and the present set-up of the government there. He enumerated the mutual advantages to the United States and to the Islands of retaining this existing arrangement and protectorate. He said, "as long as the American flag flies in the Philippines, the Islands are safe from invasion." Mr. Gowen displayed many pictures and told interesting facts about them.

Sharing the enjoyable afternoon with the club members were several

friends who had been invited in for the program.

At the business session which preceded, committee appointments for the study year which begins in September were announced by Mrs. J. W. Nichols, president, as follows: program, Mrs. Judd Greenman, chairman, Mrs. A. J. Hughes, Mrs. Robert Rushing; civic, Mrs. Harry Sandon, chairman, Mrs. Paul Gordon, Mrs. E. J. Preston; refreshment, Mrs. E. R. Estey, chairman, Mrs. William Heath and Mrs. J. W. Vaughan; publicity, Mrs. Wallace McCrae. The program chairman outlined tentative suggestions for the study hour and discussion of several new ideas advanced was held.

Concluding the delightful afternoon, Mrs. Olin served refreshments. The final meeting will be a picnic on June 8th at the home of Mrs. Harry Sandon.

**2** The structural strength of the Ford car — frame, bracing, axles, body — makes not only for safety, but durability and long life.

**3** Ford hydraulic brakes are exceptionally large and strong in proportion to car weight.

**4** The Ford car is stabilized for comfortable riding. Its springbase, the distance between front and rear suspension, is 123 inches. Seats are toward the center, perfectly balanced. The car does not bob or dip and can have very little sway.

These four points — power, strength, safety, comfort — are by far the most important essentials in any motor car. They form the basic value of your investment.

With this solid foundation to build on, the Ford V-8 has been made beautiful, spacious, easy to drive. It is richly upholstered and has all the modern features which add to the luxury and pleasure of motoring.

You can see these things when you take a trial drive, but do not forget that the main value is in the things you do not readily see — quality of materials, precision of manufacture, fundamental engineering.

# THE PEBBLE CREEK DAIRY'S Frozen Food Lockers

Your Key to Better Living

### ECONOMY

Statistics show that the average renter saves well in excess of \$100 a year. But so many other economies are also afforded that even the most conservative estimates of average renters show still greater savings.

### HEALTH

Government statistics and medical research convincingly prove that meats, fruits and vegetables which have been frozen and kept under refrigeration at comparatively low temperatures are generally more healthful than home-canned products or even fresh meats.

### CONVENIENCE

Many locker renters place the convenience factor above economy in the possession of refrigerated lockers. And well they may, for hundreds of various conveniences are enjoyed through the use of the locker.

### DEPENDABILITY

As a prospective locker renter, you will have the assurance that your foods are properly and safely refrigerated with equipment which is doing its part to make locker storage the economical, health-promoting service they now are.
