

Change of Ordinances Is Outlined

League of Oregon Cities, Research Bureau to Submit Model Draft

Modern, "streamlined," ordinances, which with slight variations, are designed to fit situations in cities throughout the state, will be prepared under a model ordinance program undertaken jointly by the League of Oregon Cities and the Bureau of Municipal Research of the University of Oregon as an outgrowth of the WPA codification service sponsored by these agencies. Under a program agreed on at the League Convention, a tentative draft of each proposed ordinance will be submitted to city officials of Vernonia and a number of other cities for review and criticism. The final model draft will be made available to city councils where situations necessitating legislation arise. It is not intended that the model ordinances be suitable for mechanical copying, but rather to serve as a starting point for working out regulations for individual cities, according to Her-

man Kehrl, Bureau director. The advantage of uniformity achieved in this way is that the model ordinance will be based on a broader experience than is available in any one city, and if the same general principles are followed by a number of cities court interpretation of one ordinance will apply in all cities. A comprehensive police ordinance for the regulation of junk dealers has already been mailed for review to Loel Roberts, municipal judge; and A. D. Lolley, police chief.

Model ordinances designed to provide city traffic regulations, and to cover municipal regulation of food handlers, curb cuts, pavement cuts, and others will be included in the program.

The bureau also has on file, available to city officials, model ordinances drawn by various national and state organizations.

EXAMINERS DUE HERE AGAIN JULY 20—

Announcement of a future visit of examiners for drivers and chauffeurs licenses was made this week to set aside the date of July 20 for that purpose. The examiners will be in Vernonia with headquarters at the city hall between the hours of 10:30 a. m. and 3:30 p. m. on that date.

Community Play Areas Can Be Profitable

Fear of Expense Brings Neglect of Opportunity for Development

Vacant lots or farm yards could profitably be turned into community play areas for children and equipped at slight cost, believe staff men of the physical education department of OSC, who discussed this subject on one of the regular 9 o'clock evening state college "round tables" over radio station KOAC.

Many persons neglect such opportunities because they fear too much labor or expense would be involved, said Grant Swan, OSC track coach in the discussion with Bill McKalip, freshman coach, and Howard Smith, head of physical education in the Corvallis junior high school.

"Establishing tennis courts is expensive and difficult, said McKalip, "but children or grownups can have just as much fun with badminton, a somewhat similar game but which requires no fences nor carefully prepared ground. Playing equipment is also reasonably priced."

Other homemade or low priced equipment suggested were boxes for box hockey and lumber scaffolding for swings, teeter-totters and horizontal bars. It was suggested that the last named be kept fairly low and over soft ground as high bars are dangerous for inexperienced children.

88 Per Cent of County Crop Land Included

31,853 Acres of Land on 1,306 Farms Represented

Approximately 88 per cent of Columbia county's crop land is included under this year's AAA farm program, according to a summary compiled at the county agriculture conservation office in St. Helens.

This represents 31,853 acres of land on 1,306 farms said W. C. Johnson, chairman of the county agricultural conservation committee. Johnson pointed out that farmers receive benefit payments only by carrying out conservation practices on these lands, preventing soil losses and building values for the future.

Operators of 87 per cent of all Oregon crop land have indicated their intention to participate in the 1939 farm program, according to word from the state AAA office at Corvallis. This represents nearly 42,000 farmers who operate 3,000,000 acres of crop land.

The information was compiled on the basis of "farm plan and estimate sheets" which all farmers are required to sign if they wished to take part in this year's program.

Purpose of Power Program Explained

Industrial Expansion in Northwest Depends on Use of Power

Industrial expansion in the northwest is dependent upon aggressive utilization of widely available hydroelectric power, low cost transportation facilities and development of local markets. Ivan Bloch, Bonneville market development chief, gave this opinion Friday to the Portland City club.

Bloch pointed out that the federal government's development program in the Columbia basin is bringing these three essentials to the region on a scale never before possible. He urged his hearers to seize the opportunities offered and actively engage in the promotion of new industries.

"Heretofore, power development in the northwest has been localized," he declared. "The federal program at Bonneville and Coulee will make power available broadly throughout the region, thus permitting manufacturing where best suited with respect to raw materials and transportation facilities," the Bonneville engineer said.

"The water level route through the Cascades, as created by the

sea lock at Bonneville dam, provides for bulk shipment of raw materials from the Inland empire and increases the permanency of future basic industries by permitting import shipments of certain ores to enrich regional supplies.

"The development of irrigation under the Grand Coulee project will bring thousands of new settlers and thereby create new markets for industrial products."

Pointing the way to new northwest industries, Bloch declared the most fertile field lies among those in which power is a major cost item. Among these he included aluminum, copper, zinc, magnesium, sodium, chlorine and caustic soda, ferroalloys and calcium carbide.

"Establishment of basic electro-metallurgical industries," he said, "would result in expansion of secondary manufacturing industries which are the best source of diversified employment."

The Bonneville market chief stressed the need for new industries to offset existing unbalance of northwest trade, the steady decline of standing timber—the present major

natural resource—and in the steady migration to the northwest of refugees from the nation's drought areas.

Decentralized expansion in the region, through cooperation with the federal program, will tend to even out future booms and depressions, he declared.

In St. Helens—

Oscar G. Weed, J. T. Scott, C. C. VanDoren and Norris Soden were visitors in St. Helens Tuesday evening to attend the installation of officers of the Knights of Pythias lodge. Grand Chancellor Frank C. Renfrew was present for the occasion to perform the installation.

Visits Mother—

James K. Wood, son of Mrs. A. E. Wood, stationed at San Diego with the Aviation Corp of the Navy spent the past week visiting with his mother before leaving Monday for Seattle and Butte, Montana, with a shipmate, Lon P'ny. They plan to return here in two weeks for a few days additional visit before returning to duty on August 4th.

Here as Visitors—

Mr. and Mrs. A. Meinig and daughter, Dorothy, and Mr. and Mrs. Koberstein visited with Mrs. Del Long and children Sunday, July 9. Miss Dorothy is staying the week with Gwendolyn.

Breaks Arm—

Charles Carriel of Treharne suffered a broken arm last Friday afternoon while playing at the home of Harry Condit.

Fishing Trip—

A. L. Kullander, Harry Kerns and E. H. Washburn plan to leave the latter part of this week for Bend where they will make their headquarters for a week or 10-day fishing trip. During Mr. Kullander's absence, J. M. Holland of Portland will have charge of the jewelry store.

Visitors at Wood Home—

Mrs. Ina N. Scott and Miss Grace Kvale of Crosby, North Dakota, visited at the A. E. Wood home on Stoney Point during the fourth of July weekend. Richard Scott, is staying at the home during summer vacation months.

ATTENTION

Mr. and Mrs. Customer and Family:

YOU have elected AIMEE TURNER as

To Represent Vernonia at the WORLD'S FAIR.

We hope the girls will have a grand trip and we know that Vernonia will be well represented. We are very sorry that we could not send more than one girl from Vernonia, but in a contest one always wins and others must lose.

The 10 High Are as Follows:

1. Aimee Turner Trip to the Fair
2. Pauline Dial \$5.00 in Merchandise
3. Myrtle Stacy \$2.50 in Merchandise
4. Billie Bergerson \$1.00 pair of Hose
5. Erma Kent \$1.00 pair of Hose
6. Lois McDonald \$1.00 pair of Hose
7. Irene Bergerson \$1.00 pair of Hose
8. Floreida Graves \$1.00 pair of Hose
9. Jean Ryves \$1.00 pair of Hose
10. Dorothy Ovesen \$1.00 pair of Hose
