KWLK to Broadcast Logger-Clatskanie Contest Here Friday

Game Called for 2:15 P. M., Rally to Be Feature of Thursday Eve.

The first radio broadcast ever made from Vernonia will be heard over radio station KWLK, Longview, Friday afternoon, when the Vernonia Loggers meet Clatskanie on the city park field. The broadcast will be heard from the Longview station which will receive an account of the game by direct wire from the scene of play.

The game is scheduled to start at 2:15 p. m. A pep rally will be a feature of the event but will be staged Thursday evening by high school students.

Little information is available of the Clatskanie team's power. The visitors, however, were defeated by Scappoose last Saturday by a score of 41 to 0.

HUNTERS TO TRY FOR ANTELOPE

3-DAY SEASON TO OPEN OCTOBER 6; MEAT PALATABLE

The attention of big game hunters this coming weekend will be directed toward bagging an antelope with the opening of the special three-day season in certain sections of Lake, Malheur and Harney counties on Friday, October 6. While the securing of a trophy is the aim of most of the hunters, last year's hunt demonstrated that the meat of an antelope was palatable in spite

of the impression held by many that it was not.

The number of permits is limited to 150 each for Malheur and Harney counties and 300 for Lake county. Permits are still available for all three counties although as the season approaches, the demand is increasing. The permits are being issued by the office of the game commission in Portland in the order that applications are received. Anyone desiring a permit should forward the fee of five dollars together with information as to the number and kind of his hunting license.

Hunters will be required to check in and out of the open area, regardless of whether or not a kill is made, at any one of the checking stations to be located as follows: Jordan Valley, Burns, McDermitt, Denio, Lakeview and the junction of Highway No. 395 with road to Plush, this junction being located just north of Valley Falls. Each hunter must provide himself with adequate facilities for transporting and taking care of his meat.

Guns smaller than 30 calibre cannot be used except when using cartridges with bullets of not less than 1400 foot pound energy at 100 yards distance or weighing less than 150 grains. It is unlawful for a person to shoot at antelope from highways, horseback, automobiles or within fifty yards of his own vehicle.

The Forum

NOTE: The following article was received this week for publication in The Forum column of The Eagle. The expression of views are those of the writer who has signed the article.

To the Editor of The Eagle, Dear Sir:

I don't suppose you will print this, but it should be on your front page.

Let me say to the millworkers of Vernonia: Are you going to idle while the two unions fight between themselves and not get to a settlement? The situation will be just the same three months from now at this rate, and are you going to be content to see Christmas come and not have a dollar to gladden your families' hearts?

Both sides are waiting for unemployment compensation. Even if any side gets it, will it be enough to pay all your bills? Both sides say, "We can hold out as long as the other fellows do," but the ones who say that, are still getting paid and what do they care if you can make the payments on your car or place. Ask your union officials if they will find you all jobs if you lose yours. The union officials are still getting their wages. A movement was made to vote to go back to work on Monday. Get together again and all vote to go back to work. Don't let a few trouble makers dictate to you. They won't pay your bills or make your family happy.

The majority are eager to work. You can out-vote the few. Think it over. Get wise before it is too late. Those who don't vote to go back to work must have a nest egg which 50 per cent of us don't have.

Men, do you know that nearly all the A F of L are working and will be able to hold out, and what will your job be if the logs are taken to Portland? Get Wise.

I'll be looking for this in your paper. I'll bet this expresses the opinion of the biggest majority.

Yours truly, Ward Sundland
