LAUREL, HARDY TURN TO PANTOMINE IN "FLYING DEUCES"

There are still millions who insist that pantomime is the essence of comedy.

So while Charlie Chaplin, last remaining champion of pantomime, is preparing an all-talking picture, Stan Laurel and Oliver Hardy have striven to eliminate as much dialogue as possible in their current RKO Radio feature comedy, "The Flying Deuces."

The picture is approximately sixty per cent pantomime. Every effort was made to use only enough spoken lines to carry the story along. Little if any dependence has been placed on gags.

The three most important—and what should prove the most amusing sequence—in the picture are entirely in pantomime.

Credited with the comedians in a departure from the usual is Boris Morros, who insists that "comedians talk too much."

Making his debut in Hollywood with this picture as an independent producer, Morros has provided a musical score that augments every comedy situation, with the tricks of harps, wood, wind and brass speaking louder than words.

The producer describes his initial effort as a "Silly Symphony of Comedy with living characters."

"THE RAINS CAME" ACE BEST-SELLER

A truly gratifying and thrilling instance of a great book being transformed into a great motion picture is offered in Darryl F. Zanuck's production of "The Rains Came," by Louis Bromfield, which opens Sunday at the Joy Theatre, with Myrna Loy, Tyrone Power and George Brent sharing stellar honors.

As a novel this powerful story of human emotions at the breaking point and human lives at the climax while the angry forces of nature ravaged the earth, proved one of

the outstanding best-sellers of the last decade, not only in the United States, but in the British Empire, France and the Scandinavian countries as well.

How successfully and how faithfully Zanuck has transferred to the screen this fascinating story set in the colorful mythical city of Ranch-

ipur, India, is reflected in a statement made by Bromfield.

"This is my story and these are my characters," wrote the author. "As a novelist I am grateful for the privilege of seeing this book come completely to life. In my opinion, 'The Rains Came' is a great picture."
