## ANNOUNCING—

the change of ownership of the Roediger Service Station.  
Our Motto: We Aim to Please.  
24-Hour Service.

### Mr. and Mrs. Geo. Hayertz

### BETTER LIGHT — Better Lessons —

It's surprising how many country children strain their eyes when they look at their first picture book because of the poor, inadequate light from the old-fashioned yellow lamp. Many of these children at school age are held back because such light strains their eyes. Why not take precaution now to avoid this handicap at least as far as your children are concerned by providing them with

Aladdin. Then, too, every member of your family would benefit greatly thru Aladdin. It banishes that sheep-like huddle around a dim yellow light. Aladdin's abundant white light fills the room for eye-safe reading, sewing, sports or pastimes. In its wake is a home of brightness and happiness.

**Modern White Light**  
Pays For Itself In Oil Saved  
Burns 16 Times More Free Air Than Oil

Aladdin burns safely without smell, smoke, trouble or noise for full 50 hours on one gallon of Kerosene (coal-oil). Easy to operate—a child can do it. Certain as its economy, is the avoidance of eye-strain due to poor light, and often brings the expense of an eye specialist and glasses.

### New Model Aladdins and Shades Now HERE

Beautiful Aladdins in table, hanging, bracket and floor styles are here awaiting your inspection. There's a wide variety here, too, of those handsome decorated Whip-o-lite shades — or in glass if preferred.

## HOFFMAN Hardware Co.

Vernonia Ph. 181

## Faulty Bulbs

Are you one of those people who bought a fine I. E. S. Lamp with the proper type bulb in it, then when that bulb burned out replaced it with just any kind of bulb?

... they Stay Brighter Longer

15-25-40-60 WATT **15c**  
75-100 WATT **20c**

### BETTER SIGHT SUGGESTIONS

- For I.E.S. table and bridge lamps, for garage, laundry and many single socket fixtures, 100-WATT **15c**
- Brighten your kitchen, game room or home workbench, 150-WATT **20c**
- For multiple bulb fixtures and decorative lamps, 75, 90, 40, 25 and 15-WATT **15c**
- For 3-light I.E.S. Lamps 100-200-300-WATT **60c**
- For indirect lighting, simply and inexpensively, Silvered Bowl MAZDA lamps, 60-WATT **45c**  
100-WATT **55c**  
180-WATT **65c**

These lamps are designed to give you an efficient light but they must have the proper bulb in them. If your lamp doesn't seem as good as it was it may be partly your fault.
