

Public Trust Important, Said

"The state treasurer of Oregon handles each year more than \$75,000,000 of public moneys in cash, and approximately \$100,000,000 in total transactions," declares Leslie M. Scott, republican nominee for that important office.

Mr. Scott further points out that the state treasurer not only is invested with a high public trust as executive head of the finance department, but he also has responsible duties as a member of the State Board of Control. The board manages the institutions in charge of state wards; the state land board, which administers the state irreducible school fund and other trust funds aggregating more than \$9,000,000; and the state bond commission, which makes bond investments approximating \$4,000,000 per year for state funds.

Printing Board Member

The state treasurer also is a member of the state printing board,

banking board, and reclamation commissions, all of which are charged with important duties and functions.

Mr. Scott feels the people of Oregon wish positive assurance that the funds will be carefully guarded and invested; that their administrative boards will function efficiently, and that their institutions will be ably and humanely managed. His life-long personal and public record in Oregon is one of unquestioned integrity, seasoned judgment and he is well trained in finance and public business.

Commission Chairman

During his term as chairman of the State Highway Commission, 1932 to 1935, the state constructed \$18,000,000 worth of roads and in the meantime reduced the highway bonded debt \$4,862,500. He was also chairman of the state industrial welfare commission, 1928 to 1930, regulating hours and minimum pay of women and children.

Mr. Scott makes the same pledge given before the primaries, namely to give his best for workers, farmers and employers. His primary vote equaled that of the entire field against him.

Sprague Issues Statement on Three Ballot Measures Nov. 5

On the ballot at the November election are three measures which affect public morals. I feel it is my duty to express my views on these important questions.

The first is the referendum on a bill passed by the last legislature, House Bill No. 355, designed to strengthen in an important particular the liquor control act now in effect. The bill was recommended by the former liquor commission and endorsed by me in my message to the legislature. It passed both houses by a substantial majority and was approved by me.

Purpose Told

The purpose of the bill is to do away with the evils of unregulated and unlicensed drinking "clubs". Fake clubs have sprung up and operate as resorts for the drinking of hard liquor. The liquor control commission has no authority over them.

The bill also prohibits making fortified wine with grain or ethyl alcohol which has been a source of evil in this state.

The opposition to this bill comes almost exclusively from the small group of operators of these so-called "clubs" who hope to reap continued profits if they can defeat this badly-needed legislation.

Initiative Sponsored

The small group which sponsored the referendum on H. B. 355 has sponsored an initiative which would utterly destroy the present plan of liquor control in Oregon and turn the sale of hard liquors over to private, licensed dealers. This would simply mean the restoration of the open saloon.

The Oregon plan of liquor control was adopted by the legislature on recommendation of a commission appointed by Governor Meier to prepare a plan following the repeal of prohibition. This plan is recognized as one of the best in any of the states. The people of Oregon have been on the whole well satisfied with this plan and the way it has been administered. To repeal it would be disastrous to proper liquor control.

Real Purpose to Confuse

I believe the real purpose of the initiative is to confuse the voters, hoping that the people in voting "no" on this bill will also vote "no" on the referred measure. Therefore, I urge the people interested in preserving decent liquor control in Oregon to vote on the referred bill, NO. 310 YES; and on the initiated bill, NO. 313, NO.

There is a third measure sponsored by a self-styled "Oregon Tax Reduction and Old Age Pension League". It initiates a constitutional amendment to legalize "marble-board, pinball games, claw or digger games, and other gambling and gaming devices, bank night, similar lotteries and bingo games." The very title is enough to condemn the bill.

Perhaps Longest Amendment

The people at the 1938 election overwhelmingly voted to outlaw slot machines and pinball games. I am confident they will not reverse that decision under the bait of "tax reduction" and contributions to old age pensions. This measure is probably the longest constitutional amendment ever submitted and would increase by one-half the present state constitution. Its contents are not proper material for the fundamental law of the state. The supreme court in a decision in 1938 appropriately referred to certain of these machines as "mechanical bandits".

I recommend that the people vote 315 NO.

There is a real need for a campaign of education among the people of the state so they may understand just what these measures mean.

Citizens Urged to Organize

I call on all good citizens who are interested in wholesome public morals to organize and carry on a campaign of education so the voters of the state may be informed on these three measures. If they are informed I feel sure they will approve of the referred bill, voting 310 YES; and will reject the initiated measures by voting 313 NO and 315 NO.

WHERE'S MY NEW LAMP BULB?

What! That brand new bulb he bought less than an hour ago has disappeared! It wouldn't be so bad if this were the first offense but it happens all the time. Why put up with this in your household when 100-watt bulbs cost only 15¢, and 150-watt only 20¢? For Better Light—Better Sight, be sure that each of your reading lamps has bulbs totaling at least 100 watts. Good light is cheap!
