Kites and Electric Lines

March brings breezes, not only to stir the daffodils, but to fly kites for boys and it is about this kite flying that we want to speak.

Please fly your kites in vacant lots where there are no electric lines to tangle your string. And if you do happen to accidentally get your kite in the wires, don't try to remove it. Call the Electric company and they will get it down for you.

If you try to do it you may be seriously injured.

Thank you
