Casualties at Home Must Go

"Casualties on the home front, through accidents, are striking hard at the war effort of this nation and must be eliminated in the interests of the preservation of our way of life," according to a statement from the office of the state traffic division, recently.

The statement points to the list of 30,000 American workmen killed and 2,500,000 wounded since Pearl Harbor, compared to a total of 44,143 casualties in the American armed forces since Pearl Harbor, as tragic evidence of the need for preventing accidents in this country.

Casualties Compared

"Casualties on the battlefield are a regrettable sacrifice to perpetuate our way of life," said Earl Snell, secretary of state, in commenting on these figures which recently were released by the national safety council. "Casualties on the homefront, on the other hand, sabotage our war effort and may eventually nullify some military gains."

"Our fighting men today need every ounce of production this

Farmers to Join Conserving Plans

Every farmer will be asked to protect wartime food production by joining in community plans for conserving tires, trucks and cars through neighborhood "hauling and riding pools."

Details of the plan for cutting down on driving to conserve farm transportation were announced recently by George A. Nelson, County Agent, who was named secretary of the county farm transportation committee at the first meeting of that group in St. Helens on Monday, July 20. The committee decided to make a check of available trucks in the county and other transportation facilities.

Participation Urged

"Before we realize it, tires and repair parts for farm trucks and cars may have joined the do-do birds," Mr. Nelson said, in urging every farmer to participate in the program set up in his neighborhood.

Farm leaders in the committee are prepared to ask members of each of their organizations to take immediate steps to put the program into action throughout the county. Attending the meeting, which was called by the County USDA War Board, were:

Fred Boesel, president, Cow Testers' Ass'n, who was elected chairman; George A. Nelson, who was elected secretary; E. A. (Lode) McDonald, president County Livestock Ass'n.; Fred Zimmerman, President, Strawberry Growers' Ass'n.; Price Schroeder, AAA Assistant secretary.

Others who are on the committee but did not attend the first meeting were:

W. C. Johnson, chairman County USDA War Board; Noble Dunlap, Pomona Grange Master; Jesse Lewis, director Lower Columbia Dairy Ass'n.; Reed Davis, president Columbia County Farmers' Union.

Butcher!

Well, folks, now's the time to "butcher" money into circulation and buy books of War Stamps to be turned into bonds.

Also it's a good time to buy one of those new Biltwell Davenport and chair sets while you can still get them down at Paterson's.

Women Workers Wanted

This company is planning to employ a very limited number of women workers in those departments of the Vernonia Manufacturing Plant where the skills and strength of women can be used advantageously and safely.

Only women between the ages of 21 and 45 will be employed. They must be in good health and of such stature and build as to be able to work for eight hours daily at jobs formerly held by men without undue strain on themselves.

At the outset, women will be employed only at jobs paying the minimum wage of 82½¢ per hour.

After a reasonable amount of training, women will be shown no favoritism but will be expected to do as much and as efficient work as the men they supplant.

As in the case with all employees covered by the Working Agreement, women workers will be required to join I.W.A. Local 5-37 of Vernonia within forty working days after entering our employment.

As a measure of safety, women workers must dress for their jobs by wearing slacks; flat-heeled shoes and leather or leather-faced gloves.

Applications for these jobs will be received by Mr. C. L. Anderson, Plant Superintendent, only at the following time and place and must be made in person. Mail applications will not be considered nor will applications be considered at any other time or place

The Time: Sat. Morning, Aug. 8, 1942
Between the hours of 8:00 A. M. and 12:00 noon.

The Place: On the plant at the lumber shipping office next to the planing mill

All women who can properly qualify and who are interested in such work as we have outlined in this advertisement are invited to present their applications in person at the time and place named. No women will be hired until applications are received and considered. The applicants who are selected will be notified by mail at a date after August 8th when and where to report for work.

No one will be hired until applications have been made and considered.

What You Buy With WAR BONDS

It's not a pleasant picture to contemplate, but War calls for "blood and sweat and tears." And the Army Medical Corps, with its efficient nurses and its volunteer Red Cross "Angels of Mercy," needs thousands of surgical beds for field and base hospitals on every front.

These beds cost approximately \$22 each. They are the latest thing in modern hospital beds, with elevating springs. In some instances surgical cots are used in temporary field hospitals and there is a folding bed which may be used in ambulances. Your purchase of War Bonds and Stamps can buy many of these beds for the Army. You'll sleep better if you know our boys have every hospital comfort. Buy War Bonds every pay day. Invest ten percent of your income.
