## News of the Theatre

**WAR PLANES AID REALISM**  
For years studios on outside locations suffered and shook their fists at noisy planes testing over Hollywood skies, but Christy Cabanne, who directed "Top Sergeant," figured a simple expedient to hurdle the interruption.

In fact he made it add to the "production value" of the Universal picture. In outside scenes, which are laid in a large U. S. Army camp he simply instructed his players, Leo Carrillo, Andy Devine and Don Terry, to look up just as one normally

ONE AMERICAN INDUSTRIAL COMPANY IS EMPLOYING 1700 MEN IN LABORATORY RESEARCH AT ITS OWN EXPENSE—SEEKING NEW DISCOVERIES TO AID IN DEFEATING THE NAZIS AND JAPS

**SOME AMERICAN FARMERS SET ASIDE 80 ACRES OF WOODLAND TO SEND THEIR CHILDREN THROUGH COLLEGE. A TYPICAL 80 ACRES, BY CONSTANTLY GROWING NEW WOOD TO REPLACE THAT WHICH IS HARVESTED, WILL PROVIDE A \$2,000 TREE-CROP AT ABOUT 10-YEAR INTERVALS**

would under the circumstances. Thus, though they are not actually viewed from the screen, millions of dollar worth of new war planes are in the film.

**RATHBONE, MASTER CRIMINAL**  
The screen's Sherlock Holmes turned master criminal when Basil Rathbone went into the role of Dr. Santelle, leader of a group of insane killers, in M-G-M's "Fingers at the Window."

Rathbone's role is that of a sinister Svengali who makes insane dupes commit murders. He is exposed by Lew Ayres, who plays the lead role as an amateur sleuth.

**HAS JUKE BOX MUSIC**  
Ann Sheridan has unusual musical accompaniment for the song numbers she sings in "Juke Girl," her present Warner Bros. starring film.

Orchestral background comes from a nickel-in-the-slot phonograph from a special pressing recorded by a Leo Forbstein orchestra. Song for Ann was written by M. K. Jerome and Jack Scholl.

## What You Buy With WAR BONDS

The Navy is making a plea to civilians to turn in their binoculars for military use during the War. The Army and Navy both need binoculars for navigation and scouting purposes. Depending on the power of the lenses, they cost from \$50 to \$200 each.

If you have a set of 6 x 30 up to 7 x 50-power lense binoculars loan them to the Army or Navy. If not, your purchase of War Bonds and Stamps will help buy this equipment for our fighting forces. At least ten percent of your income in War Bonds every payday will do the job . . . and provide the "eyes" through which a scouting pilot may spot an enemy battleship.

You know you're welcome when your host says . . .

## Play Fair With Your Lawmakers!

**Present Rate of Pay Lowest in Nation!**

Oregon pays its legislators less than any other state in the Union. Legislators in the 1941 Oregon session actually were paid less than \$1.94 a day. How can you give a poor man an opportunity to represent you, how can you expect Oregon's most able citizens to serve you on this inadequate pay? Oregon legislators should receive reasonable and fair pay.

**A Poor Man Cannot Afford to Serve as a Legislator!**

Through the injustice of the present rate of pay for legislators, fixed in 1859 (\$3 a day 83 years ago would be equal to \$30 a day now), a poor man is actually prevented from serving in the Oregon legislature. That's not America! That's not representative government! Remember, Lincoln was born in a log cabin—he was a poor man all his life.

- American Federation of Labor
- Congress of Industrial Organization
