

Storm Causes Falling Rocks

Mrs.—Bernard Dowling was a business visitor in Portland Saturday.

The Mist Helping Circle is meeting with Mrs. Harry Reynolds this week on Thursday.

George Jones was down from the Benson lookout Monday afternoon.

Shady Lane came up from Seaside Monday.

A. R. Melis was a village shopper Monday evening.

Owing to the heavy storm Saturday a lot of big rocks fell from the cliffs overhead onto the highway between here and Clatskanie, calling the highway crew to remove them.

Rain, hail and snow Monday noon caused the crew at Matthews Bros. logging site to take the afternoon off. They returned to work Tuesday morning.

The W.M.S. met Wednesday at

the A. R. Melis home on the Fish-Hill had a stroke while visiting his daughter, Mrs. Lydia Baillet in Everett. It was not learned how serious at this time.

Miss Annabelle Edmonds was an over night guest Saturday of the Austin Dowling family. Miss Edmonds came down from Portland to work in the O-A office at Vernonia.

Mrs. W. R. Johnson attended the W.M.S. at the home of Mrs. A. R. Melis Wednesday. She was glad to receive as she has been ill so long.

Mr. and Mrs. A. A. Dowling were Clatskanie visitors Saturday.

Delmar Jones recently spent a few days in Tacoma.

T. L. Calahan and wife spent the week-end at Seaside.

Clyde Johnson is helping with the building of a machine shed on the J. O. Libel farm.

Sonny Osborn came up from California to visit his parents. He has been in the army a year or two.

Perry McGee who is taking an airplane mechanic course in school in Chicago, will be ready to take his place soon wherever Uncle Sam calls.

Lady, when you count your blessings, the telephone is probably among them. After November 16, the manufacture of telephone sets was discontinued except for special units for combat use or for the army navy and certain other defense agencies. Meantime, repair of replacement parts for telephone sets now in use will continue to be made. And priorities have hit the telephone in another way. Long distance calls relating to the war effort and public safety have been given priority over all other calls. That means the operator has the privilege of cutting into any conversation if it is necessary to complete a priority call.

Bye, bye Baby Bunting, when daddy goes hunting in war time, he'll bring home more than food. For Uncle Sam is asking sportsmen to save the short down feathers of wild ducks and geese they shoot. The down goes into garments for airmen flying at high altitudes. And that's not all the sportsman can contribute from their hunting trips. They are asked to collect for scrap purposes if they contain any silk or nylon. So, Mrs. America, wash and save discarded hosiery.

Collection centers are to be established at the stocking counters of all retail stores having a women's and misses' hosiery department. The stores will make shipments of 100 pounds each to Defense Supplies Corporation, a subsidiary of the Reconstruction Finance Corporation. It takes 1500 pairs of silk stockings or 2300 pairs of nylon hose to make 100 pounds.

And on the subject of stockings, every pair of nylons offered for sale must have a tag or label containing important information for shoppers. The marking should give not only the ceiling price but also information as to the type and grade of stockings. OPA regulations also mean that the new ceiling prices on nylon hose must be posted, and, incidentally, this OPA regulation is the first which sets a universal price on a commodity. In other words, whether you're a shopper in Portland, Seattle or Los Angeles, the prices charged for nylon stockings are exactly the same in every store.

Perry has some of the news from the papers and appreciates them, too. He is the son of Mr. and Mrs. L. E. McGee.

Floyd Osborn is with the armed forces in the islands.

FOR SALE—1942 crop English walnuts, 18c per pound. David M. Raymond, 1142 Bridge street. 4711

FOR SALE—Real modern, Vernonia homes. All 5 rooms or more, with bath, etc. Easy terms. A chance of a lifetime! (1) 841 Rose Ave., \$1600. (2) 191 A St., \$1650. (3) 858 First Ave., 8-room house, way you can help the war effort. Cutting down on gas in the home makes more available for war industries. Of course, gas bills will go lower, and you'll be lessening any chance of shortage this winter. And here are some conservation pointers on gas cooking: cook with a low blue flame, not yellow, in small amounts of water, saving vitamins as well as gas. When you use the oven—and as infrequently as possible—fill it to capacity. At the same time stagger cooking vessels so heat may circulate freely. And don't waste fuel by opening the oven door unnecessarily regardless of how flavorful the aroma.

Mrs. America Meets the War

Young America—the diaper set—is not due for immediate introduction to shortages. At least, there will be enough three cornered panties to go around, even with the increasing national birth rate. The WPB reports that diaper production for 1941-42 increased an average of 30 per cent over 1939. However, it is possible that there will be shortages of certain types or sizes in individual stores. But current production points to a plentiful supply.

Any color, shade or size of women's stockings can be used for powder bags and other military purposes if they contain any silk or nylon. So, Mrs. America, wash and save discarded hosiery.

Bye, bye Baby Bunting, when daddy goes hunting in war time, he'll bring home more than food. For Uncle Sam is asking sportsmen to save the short down feathers of wild ducks and geese they shoot. The down goes into garments for airmen flying at high altitudes. And that's not all the sportsman can contribute from their hunting trips. They are asked to collect for scrap purposes if they contain any silk or nylon. So, Mrs. America, wash and save discarded hosiery.

Here's warming news from the War Production Board. An additional 6,000,000 pounds of wool has been made available by the WPB for manufacture of sweaters, shawls and knitted underwear. None of these machine knitted goods are to contain more than 65 per cent wool.
