

WAKE UP, VERNONIA!

It CAN
happen
here!

OUR ENEMIES are treacherous and crafty. They like to strike in the dark, to stab in the back.

Who ever dreamed the Japs would attack Pearl Harbor? Yet Pearl Harbor WAS bombed—devastatingly! Singapore was “impregnable.” Yet Singapore fell. Hong Kong is in the hands of the enemy, as are Guam, Wake, the Philippines, Java. . . .

The Jap is willing to make great sacrifices to launch a successful sneak raid on this area, with its enormous concentration of military targets. YES, EVEN VERNONIA WOULD BE WORTH THE JAPS' WHILE! If he DOES try it—as many ranking military authorities honestly believe it is not only possible but probably—he will find a warm welcome awaiting him . . . largely due to the efficient, patriotic, unselfish service of thousands of volunteer observers, tellers, plotters and others in the aircraft warning service, an activity of the U. S. army.

This message is published as a public service at the request of the Fourth Fighter Command, United States Army Air Force, through the courtesy of the following sponsors:

Being a ground observer for the army air forces is a thrilling responsibility, yet not difficult. While serving a 6 or 12 hour shift weekly or bi-weekly, you have an excellent opportunity to catch up on reading, sewing, or letter-writing. Or you and your partner can take turns sleeping. Free transportation is provided to and from the post. **AT LEAST 20 VOLUNTEERS ARE NEEDED HERE NOW!** Men, women, and high school boys and girls.
