What You Buy With WAR BONDS

Pig Boat

At sea on a submarine isn't exactly the "life of Riley." In the Battle of the Atlantic, or on the great stretches of the Pacific these sailors know the hazards of their work.

One of the spots aboard these "Pig Boats" that all crew members enjoy is the galley, or kitchen. Space limitations prevent an elaborate set-up, but cooks aboard these vessels are justly proud of the meals they prepare for their crews. Your increased purchase of War Bonds helps make submarine life as pleasant as possible.

JEEPS FOUND GOOD FOR FARM USE

American farmers may find the army jeep a handy thing to have on the farm after the war, according to tests made by the national institute of agricultural engineering in England. In preparation for the postwar period of beating swords into plowshares, the institute has been testing various war machines that might be useful in agriculture. The tests show the jeep is capable of pulling a two-furrow plow and is particularly successful with a disc harrow.

RUSSIA THANKS AMERICAN FARMERS

The sincere appreciation of the Russian people for American seeds sent to aid Russian farmers in the war-devastated areas recaptured from the enemy was recently expressed by Russian officials, the department of agriculture has reported. As of July 1 this year, nearly 1 million pounds of vegetable seed and 2½ million pounds of field seed had been contributed to the Russian war relief agency through the efforts of United States seed improvement associations, extension services, and thousands of individual farmers and seedsmen.

CHINESE CASUALTY NUMBER CITED

On the thirty-second anniversary of the Chinese Republic the statement was made that, "for every American casualty in this war, 34 Chinese have suffered death or wounding since the day which we now realize was the beginning of the world war, the invasion of China by Japan."

DUTCH FARMER TRICKS NAZIS

One Dutch farmer has devised a novel method of evading Nazi restrictions on sale of fowl. The farmer advertised in the lost and found column of a local paper that he had lost a purse containing 100 guilders and offered one goose as a "reward for its return." Next morning dozens of persons lined up with purses which they offered to "return" for the "reward."

AUSTRALIAN WAR FACTS REVEALED

In introducing Australia's new budget, Treasurer Joseph B. Chifley revealed that more than 50 per cent of the Australian working population is under arms or engaged in war effort. One-sixth of Australia's total war expenditure in the present year, he said, will go for reciprocal aid—"reverse lend-lease"—to the United States forces in Australia and the Southwest Pacific. Labor Minis-

ter E. J. Holloway pointed out that nearly one in every three workers in Australian government and semi-government munitions, shipbuilding and aircraft works are women. The commonwealth food production executive has launched the biggest seed production program ever launched in Australia. Many farms will devote large areas to producing vegetable seed. Before the war, much of the vegetable seed used in Australia was imported.

HAITI'S RUBBER HELPS ALLIES

Haitian rubber and fiber are playing a vital part in helping the allies. The rubber production program in Haiti for planting up to 100,000 acres of cryptostegia, a latex-producing vine, to yield at least 100,000 tons of natural rubber a year for tank treads, combat tires, and other uses to which synthetic rubber alone is not adapted. The sisal agreement calls for delivery of 25 million pounds of fiber for naval and other uses during the next two years. Production figures show that both programs are well ahead of schedule.

NORWEGIAN FARMERS ASKED TO RESIST

Norwegian farmers have been urged by the Norwegian underground newspaper, Bonden (The Peasant), to sabotage the Nazi's program in Norway, according to a report received by OWI. The paper asked farmers to refuse "to comply with forced requisitioning of goods and raw materials, to hand over horses and to work for the enemy." If they take help by force, the paper suggested, "then see to it that stolen goods are destroyed at places where the enemy has collecting centers and stores."

CHINESE GET LIBERTY SHIPS

The American liberty ships recently assigned to the United States to the Chinese government for operation during the war are the beginning of

the first Chinese oversea merchant marine. Dr. V. T. Soong, Chinese foreign minister, commenting on the event said: "Flying the Chinese flag and manned by Chinese crews these ships will represent an important symbol for China and the thousands of Chinese sailors now sailing on ships of the United Nations." One of the ships was named "Chung Shan" in honor of Dr. Sun Yat-sen, father of the Chinese republic and the other, "Chung Cheng" courtesy name of Generalissimo Chiang Kai-shek, China's president and wartime leader.

HOW BELGIUM FIGHTS, TOLD BY PAPER

A guide on methods of resistance against the Nazi occupation forces was recently published in the underground Belgian newspaper, Echo de Belgique. The article was entitled: "To the Displeasure of Traitors, Belgium Makes War." It said, in part: "The worker who hides in order to escape working for the benefit of the enemy makes war. The farmer who refuses to hand over his produce to the Germans makes war. The gendarme or the policeman who passes by the man whom he was ordered to arrest makes war. All Belgium makes war and will continue to do so until the last Boche crosses the Rhine again and the German army has unconditionally surrendered."

FRENCHMEN ESCAPE SLAVE LABOR

Ninety-three per cent of a total of 50,000 Frenchmen recently called up for compulsory labor service in Nazi war industry succeeded in evading the conscription, according to the Swiss newspaper Tribune de Geneve. In Belgium, house-to-house searches for slave laborers continue, according to reports reaching Belgian officials in London.

THE OLD JUDGE SAYS...

"Just dropped by to tell you, Frank, I had a fine letter from your son, Joe, this morning. Mighty nice of him to take the time to write me... I know how busy they keep the boys. That's a fine camp he's been transferred to up in New England."
"Yes, Catherine and I had a letter this morning, too. Said he was writing you... he's very fond of you, Judge. Catherine is certainly proud of Joe and proud of the great Army he's a part of."
"She has good reason to be, Frank."

Joe is one fine fellow and the Army he's in is the best disciplined, best behaved in our history. Just last night I was reading an article that quoted a report signed by five chaplains in the very camp where Joe is now training. I remember their exact words which were "there is no liquor problem at this Post." And I understand that's true in camp after camp all over the country. And if Catherine would like to see that report, I'll drop it off at the house tomorrow."
