

ANTI-FREEZE IS PLENTIFUL—WPB

The nation's motorists are being oversold on anti-freeze and told of shortages that do not exist, according to the war production board. Production of alcohol anti-freeze for this winter is 50 per cent more than last, WPB said, and asked motorists to watch their own needs and not to overload. Alcohol from which anti-freeze is made is a critical war material.

WPB REMOVES COPPER RESTRICTIONS

Restrictions on the use of copper in farm tractor radiator fins and power takeoff gears have been removed by WPB. These uses of copper, particu-

larly in radiators, not only will reduce time of manufacture of farm tractors, but will improve their field performance.

TIRE, TUBE SUPPLY STILL LOW

Tire and tube quotas for January reflect the continuing shortage. The quota of 276,629 new truck tires is 13,890 less than the December figure and the quota of 230,400 new truck tubes is 27,787 under the December figure. Similarly, a lessening in demand which usually occurs during the colder months accounts for lower January quotas for farm tractor and farm implement tires and tubes. The tire quota is 27,600—lower by 4,600 than the December figure, while the January tube quota is 23,000—lower by 9,200.

PEACHES RELEASED TO CIVILIANS

Approximately 750,000 cases of canned peaches, previously set aside for government purchase, have been released for civilian supplies and will reach some retail markets within a few weeks.

BEAN, PEA ALLOCATIONS FOR CIVILIANS GREATER

Civilians will receive 11,500,000 bags (100 pounds each) or half of the supply of dry beans allocated for all needs in 1944. Twenty-nine per cent of the 1944 supply of dry peas—two million bags—also will go to civilians. This means civilians will have available a naverage of about 8.9 pounds of beans and 1.6 pounds of peas during the coming year. This is slightly larger than the per capita consumption of dry beans in the 1942-43 crop year and is a much larger consumption of dry peas than for any previous calendar year.

CHILDREN'S WARE PRODUCTION ESSENTIAL

To insure sufficient production of infants and children's wear, the industry has been in-

cluded by the war manpower commission in its list of essential activities. Also, WPB has ordered approximately 18 million yards of cotton fabrics set aside for the manufacture of certain specified items of infants' and children's clothing. Worsted and cotton yarn will be allocated for manufacture of knitted outerwear and infants' ribbed long hose, half socks and anklets. Such goods will not arrive on retail counters until February and March.

NEW RULING ON ALIENS MADE

An enemy alien who is a German, Hungarian, Rumanian, or Bulgarian citizen or national may be inducted into the armed forces of the United States and assigned to a war theater in which he will not normally be required to fight against fellow nationals, under a recent revision of selective service and war department policies. The change in regulation may cause some enemy aliens to withdraw their objections to all U. S. military service. Such cases will be reconsidered. Because of the recognition of Italy as a cobelligerent, local selective service boards have been directed to reconsider the classification of Italian registrants previously not acceptable because they were enemy aliens. Neutral aliens may file a selective service form 301 and request relief from service in the armed forces of the U. S. However, if a neutral alien becomes a cobelligerent, the previously filed form becomes ineffective.

GAS RATION FOR SERVICEMEN ANNOUNCED

To aid servicemen in recuperating from illness or wounds received while on active duty, OPA has announced that they may be issued special gasoline rations for use in traveling to and from their homes or other places of convalescence. This special ration will be issued upon presentation of leave papers to a local rationing board and a letter from the attending medical officer certifying that transportation by automobile, rather than by any other means, will materially assist in the recovery of the serviceman's health.

TWO MILLION FLATIRONS COMING

A program to make two million flatirons for civilian use in 1944 has been approved by WPB. This amount will not come up to normal production but it will ease the hardships caused by two years of almost no production. It will probably be six months before many of these irons will reach dealers shelves.

Sawdust...

Mondays are either a bad day for Paul Gordon or else he is getting a little bit absent minded... anyway it causes one to wonder when he has to make three trips for one thing... Sometime ago Mr. and Mrs. Jewett Bush received a lovely gift of a pair of love birds, but found these birds took quite a bit of care. One day a door was accidentally left open and the birds escaped and a burden was more or less lifted. However, to their surprise a few days later two more birds were sent by a friend to replace the lost ones. Ace Lolley is proudly displaying a large ash tray made from army cannon and machine gun shells by Harold Wagner who is in Africa... the tray has created a lot of comment and Ace has been offered \$10 for it by one person. But Ace says he won't sell it for any amount of money. The piece is on display in Miller's window.
