## Our Great America by Tryon

## UNITED NATIONS AT WAR

#### ARMY BROADCASTS IN ENGLAND

In England, the U. S. army owns and operates in cooperation with the office of war information, its own network of 55 stations. Most of these are low-power stations with a broadcasting radius of only 10 to 15 miles but they dot the British Isles and reach most American troop outposts there.

#### LIFE IN KHARKOV NEARLY NORMAL

The main streets of Kharkov, Russia, recaptured by the Red

army on August 23, are crowded and animated. Shops, markets, and dining rooms are busy and street cars soon will be running again. Seventy-seven newly opened schools are attended by 23,000 children. Lectures have started at the agricultural and medical institutes and the state university.

#### BRITISH TO "FIGHT" LOCUSTS

A force of 1,000 British soldiers, unarmed save for tons of bran mixed with an arsenic compound, soon will be battling swarms of locusts in the trackless wastes of Saudi Arabia. The locusts cause inestimable damage to United Nations supplies. Because Saudi Arabia is neutral and the Holy Land of the Mos-

lems, the men, besides being unarmed, will wear no badges of rank and all will wear the Arab headdress. All the non-European troops accompanying the expedition will be Mohammedans and the British troops will not be accompanied by a chaplain. Neither will any alcohol be carried, for its use is forbidden by the Koran.

This is the formula: "Dry the chestnuts, remove the husks and grate the kernels. After boiling the kernels, press the mush through a sieve. The liquid thus obtained must be mixed with warm water after which it is ready to use." The paper warned, however, that this "ersatz" must not be used for fine fabrics.

#### SOAP MADE FROM CHESTNUTS

According to the nazified Amsterdam daily, Algemeen Handelsblad, a "suitable laundry soap" can be made out of chestnuts.

IT'S IN THE AIR. You can feel it, every time the Axis is struck. This is the climax year, the year of decision.

In history, 1944 will be the big year of the war—every stroke for victory counts more now. That's why it's vitally important for every American to be at his post, doing his part right now.

You, personally, have an important job in winning the war—buying War Bonds. It's not glamorous—no, not even a sacrifice, really, because you are only lending your money, to be returned with

interest. But it is essential to complete victory.

Your part in this year of decision is at least one extra \$100 Bond, above your regular Bond buying. That is your minimum individual quota. But don't stop there. Remember wars are won only

by all-out effort. So buy \$200, \$300, \$500 worth—buy more than you can afford. And buy your Bonds where you work—at the plant or at the office.

Your country is counting on you—let's make the year of decision OUR year!

This sticker in your window means you have bought 4th War Loan securities.
