

**RATIONING REGULATIONS MOVE IS TAKEN**

As a further move to stamp out the black market in gasoline, OPA has ruled that any local board or special hearing officer, after a proper hearing and a finding that the tire or gasoline regulations have been violated, may not only revoke a gasoline ration, but also may prohibit the use of gasoline in the violator's possession which was obtained as part of the ration.

**PORK AND BEANS RELEASED**

About 440,000 cases (approximately 20 million pounds) of canned pork and beans will be released to civilian consumers within the next few weeks.

**PRICE RISE IN 1943 WAS SMALL**

At the end of 1943, the general level of prices in wholesale markets was two per cent higher than at the close of 1942 and the prices of staples that families buy in retail markets for everyday living were up by about

three and one-half per cent. This price rise was smaller than in any year since 1940, according to Frances Perkins, secretary of labor.

**OPPORTUNITY OFFERED RETURNING VETERANS**

Returning war veterans may enter virtually any of the 30,207 apprentice training programs in the United States. Age restrictions and other limitations have been especially lifted for veterans in many apprentice-ship standards so they may obtain training for skilled work, according to the war manpower commission.

**LEND-LEASE FARM MACHINERY REPORT MADE**

Less than 3 per cent of the United States production of farm machinery went for lend-lease between March 11, 1941, and November 1, 1943, according to the president's report to congress on lend-lease operations. Allied need for farm machinery was increased because of military needs. American flying fort-

resses now use air fields which four years ago were among Britain's best farms, thus necessitating reclamation of marshes and rough hill land for farm acreages. When Australia was threatened by Japanese invasion early in 1942, thousands of Australian farm tractors were conscripted for construction of military roads and airfields. Moreover, British and Australian farm machinery manufacturing facilities early in the war had been converted to ordnance production.

**FARM WASTES USED IN CORK SUBSTITUTE**

A new type of cork substitute, utilizing such farm wastes as the pith and fibres of sugarcane, cornstalks, and peanut shells, has been developed by the department of agriculture's northern regional research laboratory at Peoria, Ill. The agricultural administration says the substitute is the equal of cork disks used in bottling beverage products. A branch of the bottling industry is now building a large scale pilot plant to develop manufacturing procedures and costs.

**GAS CUT OFF IN YUGOSLAVIA**

The gas supply to private homes in Yugoslavia has been discontinued because of a coal shortage. Requests to householders to curtail consumption by 50 per cent did not produce desired results.

THIS is what we've been working for all along. This is the year to hit and hurt the enemy. This is the time when everything you do counts double. If we all get together and do all we can, we'll be over this hurdle and well on our way to complete and crushing victory.

No question about the men in uniform—they'll go "all out." But can we count on you to back them all the way? Your quota is where you work—you've got to buy your War Bonds and then buy more, until every last loose cent

you have is fighting. Tough? Of course, it's tough—unless it is a sacrifice you're simply not doing your share!

Make the sacrifice now—buy more than the extra \$100 Bond your country counts on you for—winning the war is worth any sacrifice you make. Besides, you aren't giving, you're lending to America! You'll get back every dollar you invest in War Bonds, with interest.

An extra \$100 War Bond now is the minimum for everybody—can't we count on you for more?

This sticker in your window means you have bought 4th War Loan securities.
