The Forum

Everyone likes to see painting done for the improvement it makes but the paint must be applied in the right place, else it can hardly be called "improvement." That was the situation last week when Bob Spencer succeeded in making a so-called "improvement" of the floor at Hoffman Hardware. Buying some paint for use at the high school, Bob was carrying it to the street when the can slipped from his hands and burst when hitting the floor. Bob wasn't the only one to drop paint for Herb Condit and Tex Mills did likewise but fortunately none of their was spilled.

Some comment is also being circulated this week about the golfing ability of Connie Anderson, who ability in general is not questioned, but whose activity in making a birdie a few days ago was creating interest. One report of the "event" was that it was "sloppy." Mr. Anderson can probably describe the birdie much more accurately than the one given in this column.
