B-3, C-3 Gas Invalid Soon

B-3 and C-3 gasoline ration coupons will be invalid for motorists after September 30, Edmond W. Eggen, district OPA mileage rationing representative has announced.

At the same time T coupons marked '3rd qtr.' will expire for commercial motor vehicle operators.

Filling station operators will have ten days, or through October 10, to turn them in to their supplier for gasoline or exchange them at their local ration board for ration checks. Distributors have until October 20 to deposit these coupons in their ration bank accounts.

Holders of invalidated B-3 and C-3 coupons which were issued for use beyond September 30 may exchange them for valid coupons at their local board, Eggen said.

Merchant Marine Gas Order Made

It is the opinion of the eligibility committee of the automotive supply rationing division of the OPA that merchant seamen could not be interpreted as members of the armed forces and that they could not establish eligibility under the furlough amendment.

The merchant marine is a civilian organization and its members are civilians, their service is voluntary; they sign up for a trip and are discharged at the end of the trip. The period of time which they have free is not a leave or furlough. These periods vary in time and depend upon when the ship sails, how much time the individual person has accumulated and his own wish to return. His return is voluntary and if he does not want to ship out on the next voyage he is not compelled to do so. Under these circumstances it would be impossible to interpret the merchant seaman as eligible under the furlough amendment.

"Bombs Away!" These bombs are leaving an American "fortress," somewhere over Jap installations.

The bombs we make today will be dropping on German cities, Japanese islands in a very short time. The home front must fashion them and pay for them with War Bonds.
