New Neighbors Are Welcomed to Homes In Riverview

RIVERVIEW — Those who report trips to Portland during the past week were Mrs. Virgil Powell, Mr. and Mrs. Oscar Steele who visited the Billings family and Mrs. Polly Lynch and Mrs. Netka.

We need both hands extended this week to welcome our new neighbors; one goes to Mr. and Mrs. George W. Davis and son, George Eugene, of McMinnville who moved Monday into the home they purchased of John McNeil, the former Harold Parker property and the other to Mr. and Mrs. Olaf Jacobson who moved into the home they purchased recently of Mr. and Mrs. Oscar Sorlee. This family comes from Vancouver and found their location thru the efforts of Mr. and Mrs. Herman Wood who were their neighbors for many years in Evanston, Ill. Both Mr. Wood and Mr. Jacobson work in the Vancouver shipyards and make the round trip daily.

Mrs. Bessie Netka is substituting for Gertrude Anderson at the O-A mill this week while Mrs. Anderson is away with her husband.

Little Ronald Bodell, son of Mr. and Mrs. Glen Bodell was quite ill Tues. morning with tonsillitis.

When Mr. and Mrs. E. L. Lloyd returned from Bradwood last Mon. they brought their

THE OLD JUDGE SAYS...

"The war sure has made a lot of changes in this old world of ours, hasn't it, Judge?"

"Plenty of them, John. One that few people realize is that the rubber producing center of the world is now right here in the United States.

"When the Japs conquered the big natural rubber producing centers of the world they thought they had us licked. But in two short years, thanks to American industry, we are now producing synthetic rubber enough to supply all our military and essential civilian needs.

"Our rubber experts knew how to make it but the problem was to get the huge amounts of industrial alcohol needed. Almost overnight the country's beverage distillers stopped making whiskey and converted 100% to the production of this vital ingredient. A high government official said recently this was "...an almost unparalleled example of the overnight conversion of an entire industry from peace to war."

"Come to think of it, Judge, it was a mighty fortunate thing the beverage distilling industry was in existence, wasn't it?"
