

### Two Important Events Deserve The Support of Everybody

Beginning on the next two Mondays, November 20 and November 27, are two events which deserve the support of every individual because of the importance arising therefrom.

On November 20, next Monday, the Sixth War Loan drive begins here as it does all over the nation. Everyone is familiar with the purpose of the drive, for information has been widely circulated regarding its importance and the benefits derived by subscribing heavily in war bonds at that time.

On November 27, Nehalem Valley citizens along with other citizens in the county and nation will receive through the mail letters containing Christmas Seals. The importance of remitting to Mrs. Connie Anderson, local chairman, the cost of those seals cannot be overemphasized. The money received by the Red Cross is divided so that 75 percent remains in the county to fight tuberculosis, 20 per cent goes to the state association and five per cent goes to the national association. The money from the seal sale is the only means of fighting this disease and during the years that funds have been available for the fight, tuberculosis has been reduced in prevalence so that it is no more man's most dangerous disease.

The ultimate aim of workers in the fight against TB is its eradication. A further step in that direction will be the mobile chest X-ray unit which will visit Columbia county in the spring, offering free chest examinations to everyone.

The mass X-ray program and the stamping out of tuberculosis can only be made possible by your Christmas Seal purchases.

### Events in Oregon

#### MALING CANNERY CLOSES NIGHTS

HILLSBORO — Cannery officials this week ordered the B. E. Maling cannery to go on full day-time shift with no night work, due to absenteeism caused by cold and dampness at night. Turkeys have started coming in to be processed and millions of pounds of the birds for shipment to the armed forces will be prepared. Mixed vegetables are still arriving at the cannery but are being taken care of.

#### WAR CHEST GOES OVER TOP BY \$1033

TILLAMOOK — The war chest drive in Tillamook has gone over the top with a quota of \$14,600 over subscribed by \$1033.72, the sum total amounting to \$15,633.72. Citizens have been most generous in their contributions, feeling that the money has been put to good use in all relief organizations and in soldier benefits. Aiding much in the last minute contributions were those made by the civilian personnel at the naval air station. Lt. C. C. McGoon, who was in charge of that program, sent in a contribution of \$250 collected and subscribed by that personnel.

#### HALF OF WAR FUND QUOTA RAISED HERE

SEASIDE — With less than half of the Seaside quota raised, the war fund drive was virtually completed this week. A total of \$3687.15 had been turned in at the office of Gault Patton, city auditor. It is hardly likely that there is enough in the hands of solicitors to bring the total to \$4000, which is just half of the quota of \$8,000. Last year approximately \$4,000 was raised in Seaside, with \$1,226 collected in Gearhart and \$711 in Cannon Beach.

#### SALVAGE 447 TONS PAPER IN ONE YEAR

FOREST GROVE — During the first year of paper salvage Washington county contributed 447 tons of paper to the Oregon paper drive, the state salvage committee disclosed this week on the first anniversary of the intensive campaign.

County citizens contributed an average of 23.3 pounds per capita the report said. This was slightly below the state average of 27.8 pounds per capita.

During October the county collected a total of 30 tons of paper, less than half the 75 tons collected during September.

### Washington Snapshots

Large overseas shipments of farm machinery under lend-lease are making it necessary for American farmers to scramble for equipment. Continued manpower problems, lack of sufficient foundry and casting facilities, and continuation of war contracts are also reasons why output of machines remains below demand. It now looks as though the president's recent call for more farm machinery may be the forerunner of increased exports of foodstuffs to Europe.

Reports that public members of the war labor board may ask additional powers are causing a lot of speculation in Washington. Since the present powers of the board have been considered adequate to establish reasonable stabilization, it is believed that extension of those powers would be: 1. to allow wage adjustments not now permitted, or 2. to impose wage standards for broad social purposes rather than to prevent inflation. Reports have been current that organized labor has been assured of policies designed to maintain the high level of wartime weekly earnings after V-E day.

Rival groups in Washington manifest considerable disagreement about an ambitious postwar foreign trade policy said to include items totaling more than \$100 billion, and expected to affect American manufacturers, both large and small as well as all other elements of the nation's economy. Despite the intense secrecy shrouding the program, some members of congress have learned enough details to cause doubts of its workability.

#### Dead Man Inside You

Yes—a dead man down inside you. Your throat is an open sepulchre and it sends up the smell of the dead. The Bible says so—Romans 3:13.

Sin struck you dead. All have sinned and the wages of sin is death. On the one side is the vast number—the human race—the fallen sons of Adam—dead in trespasses and sins. Set opposite is the great host who have obeyed God; counted on Christ's blood to wash out the stain of their sin and into whose heart God has breathed his own eternal life. They shall never use the judgement of the lost.

But God paid high to possess them. He would not wink at their sins and receive them as they were. So he washed them clean in the blood of the Lamb. The blood of Jesus Christ—God's Son cleanses all from sin.

Now the miracle.  
Take forgiveness on the

#### What "Capitalism" Means . . .

To me "Capital" narrows down to the meaning of the financial setup that pays me for my own particular job, so that I can buy groceries, pay the F. H. & A. for my house, get snoot and bet on the horses.

My paycheck comes from the lumber business; or, in a broader way of putting it, from the forest products industry.

Now, we all know about the U. S. census. We have to trust its figures on what is in this country from people to peanuts. The census sets the amount of "Capital Investment" in the forest products industry roughly at \$10,000,000,000 (ten billion bucks), and the number of employees at approximately a million.

Just focus on that round figure of a million employees in American forest-products industry woods and mills and on that ten billion dollars of invested capital. What does it mean to you?

To me it means that ten thousand dollars of somebody's money is invested in my job—that every job in the nation-wide forest products industry represents a "Capital Investment" of about ten thousand dollars. This is so if the census is so.

Capitalism Is Twins . . . Money capital is invested to earn more money—in dividend or other forms of profit. The money investment is made productive by the work of human beings. So there is another kind of "capital investment" involved—the capital of intelligence, strength, energy, loyalty, skill, education, and all other qualities which serve to make up the value of an individual on a specific job. That is, human capital.

Every baby is a capital investment. It costs a pile of money to bring a child into the world and to rear it to an age and condition for independent ground that your sins were put on Christ and the penalty paid. Christ who knew no sin was born into this world to become sin for us. He bore away our sins and in their place, we have a wedding garment. For now God's righteousness is brought out and put on all who trust in Jesus Christ as Saviour. Ro.3-21.

But what for our hearts? How shall we come into eternal life? Here is the miracle. God acts when you embrace Jesus Christ as clearing you by his death for your sins. God inbreathes his life into your soul—his spirit touches your spirit with life eternal. This is the new birth. You are now born again and into the family of God. He is now your heavenly Father. As the vine sets up life in the branch, so God sets up life in you. Abide in Him.

From now on you are to abide in Christ. To abide in bringing every known sin into the light and make confession. It is to have nothing in life that we cannot share with Him. And to take all our burdens to Christ and draw all our wisdom and strength from him.

You are to go on in death

living; to an ability to produce. This ability may be no more than that of a strong body trained for simple manual labor. Or, it may be that of a technically trained engineer whose "capital investment" of education amounts to several thousand dollars.

In any case, the capital of ability embodied in the personnel of any industrial concern is a twin; and the money capital of the investment in materials, supplies, plant and organization, is another twin. The two are inseparable in American enterprise. Human capital and money are economic brothers.

The Common Ground . . . Such, in simplest outline, is the productive system we live with. It is the real America. Those mass neuroses of humanity, Communism and Fascism, have never had a chance except in countries where most people had little to live on, and no hope to speak of. Only lunatics expect to get anywhere with such movements of popular desperation in America. Our production twins, human capital and money capital were never stronger. War, paradoxically, has made peace between them. We must see to it that peace does not give rise to war again in our production family.

Certainly a postwar program for all, for each of us, should be the finding and holding of common ground on which the twin forces of production can work wholeheartedly together, with minimum risk of conflict.

In my industry such common ground is wide open and welcoming at our feet, right before us. It is promotion of lumber markets and prevention of forest fires. For grown men, however, we have been terribly shy, skittish and bashful about teaming up. What about taking our thumbs out of our mouths and tearing into it?

or to choose Christ and life. Which?

#### OUR FATHER

Be not too anxious, O my soul, All nature bids you trust He who has all things in control. Is great and good and just. The ravens and the fowls of air, They sow not, neither reap. Our father has them in his care, He gives them all they need. The lilies of the field are clothed In garments pure and white, They neither toil nor spin, yet grow.

Our Father, He provides. Then be not anxious for tomorrow, Let's cast on Him our care. He has a balm for every sorrow, Our griefs He helps us bear. Our Father knoweth all we need, He only bids us trust. His Kingdom just we are to seek All things He'll add that's just. Grandma Washburn

### At the Churches

#### ST. MARY'S CATHOLIC

Rev. Anthony V. Gerace  
Rev. J. H. Goodrich  
Mass: 9:30 a.m. except first Sunday in month—Mass at 8:00 a.m. and 9:30 a.m.  
Confessions from 7:45 a.m. on.

#### FIRST CHRISTIAN
