FOR BUILDING

CLATSKANIE— A Clatskanie Veterans' hall is proposed.

Plans have been sketched and ideas for raising money for the building have been decided upon. This week letters are being mailed to veterans of all wars and to friends asking for their financial support.

The need of such a building is felt by the two veterans' organizations in town and it is their desire to have the building erected or at last to have the wherewithal to do it by the time the boys come back from the present war.

Preliminary estimates place the cost at \$15,000.00. A well equipped and properly arranged meeting room and dance floor is planned. From this dance floor it is anticipated that enough money can be raised over a period of time to repay all those who advanced their money forthis purpose.

American 'Real Income' In November Off 1 Cent On \$1 From Year Ago

THE above chart, showing how the average American fared in national income changes in the last twelve months, is based on the monthly consumers' study of Inves-tors Syndicate of Minneapolis. The American public in Novem-

ber had a "real income" of 99 cents, or one cent on the dollar less than in November, 1943. This "real income" is not a subtraction of cash income and expenditures but an average relative of these figures designed to show how living costs affect adjusted income dollars.

Cash income of the American pub-lic in November was 99 cents for every \$1 a year earlier. The follow-ing changes per dollar were: wages off 7 cents, salaries off 5 cents on

the \$1.00; other income up 9 cents on the dollar and investment income at \$1.13 was up thirteen cents. Rents in November were unchanged compared with a year ago. Clothing was up three cents. Food was one cent lower. Miscellaneous items were up one cent.
