Rent Records Still Needed

All landlords operating hotels or rooming houses under rent regulations were obliged even during the interim period between June 30 and the effective date of the new act, to preserve all records which the rent regulation required them to keep, Jackson T. Moore, district rent executive, announced Friday.

This same obligation is in the new act, he explained, and all such landlords are cautioned not to destroy such records but to preserve them.

Also, the obligation to post maximum rents for all rooms continues if landlords have removed their postings, they must immediately re-post them in every room as the June 30, 1946, maximum rents are re-established by the new act, Moore said.
