"You don't have to swing to kill that pesty thing!"

Flies, mosquitoes, moths and other similar insects (with or without wings) take a permanent nose-dive when they run into a whiff of Standard Fly Spray. Used as directed, it won't stain your finest materials, it has no unpleasant odor, and it's harmless to human beings. It not only gets rid of pest parents, it also destroys their eggs and larvae—before insects are born.

And use Standard Animal Fly Spray to get rid of flies on milk cows—and as a general insecticide for all animals.
