

### Continued Food Efforts Needed

While Oregon and the nation as a whole have met the immediate short-time goals of famine relief, the world food crisis is far from over and will require the continued efforts of this and other surplus producing countries through this year and most of next, says W. L. Teutsch, assistant director of extension at O.S.C., after reviewing the activities of famine relief forces in this state and latest reports from the national capital.

Early in the famine campaign the extension service joined forces with other USDA agencies mobilized by the PMA and carried on an educational campaign among rural families throughout the state. In many counties local committees were active and in others local informational material was distributed through cooperation of the press and radio and at numerous meetings, reports to Teutsch indicate.

"President Truman has declared officially that every American can take pride in the record of accomplishment in shipping food for relief," Teutsch points out. "Only by cooperation and deter-

mined effort has it been possible to make good on our promises, the president stated, in asking for continued cooperation in the months to come to relieve the hunger that still exists in the world."

Individual—rural families can do most from here on through continued conservation of bread and wheat products and through saving fats and oils, Teutsch added. Saving of waste fats is still a prime necessity both from the standpoint of general food conservation and to insure a steady supply of manufacturing fats for soap and related products for American use.

The need for home food preservation by canning, freezing and storing is just as important now as during the war years, he emphasized. While it is regrettable that homemakers in this state are unable to obtain the sugar they could use with Oregon's abundant fruit crops, many foods are preserved without sugar which will be needed to replace commercially preserved products required by those who are unable to store locally produced food.

One Arctic post of the Royal Canadian Mounted Police is less than 750 miles from the North Pole.

### Shortages Don't Stop Building

RIVERVIEW — Despite shortage of materials, building activities continue. The addition of a good sized room is underway at the Robert Lindsay home, the Bledsoes have a new garage, the W. D. Steeles are adding a bath room to their residence, and Mr. Welter has just completed a fruit cellar which has sawdust-filled walls.

Robert Wyckoff accompanied his wife and daughter, Laurel, who had spent the week at Astoria where he is stationed, to their home here Saturday night and spent Sunday here.

Mr. and Mrs. Fred Mahar and daughter, Irene, of Elwood, Nebr., were at the home of his brother, Ralph Mahar, from Friday until Sunday. From here they went to Astoria to visit other relatives.

Mr. and Mrs. Ralph McKee and children spent Sunday at Jantzen Beach where the annual Nebraska-Missouri picnic was being held.

Miss Jaunita Parker of Sweet Home drove up Friday with a lady friend and spent most of the afternoon with Mrs. Anna Parker. From here she went to Keasey for a visit with her aunt, Mrs. Bill Mason and family.

Mrs. Alice Boltinghouse enjoyed a three-day visit this week from her daughter, Mrs. John Casey, who came over from Tacoma. Arthur Boltinghouse of Centralia, Washington was also her guest.

### Actions of Mist People Mentioned

MIST—The L. Renfrows are building a bath room in their house on the mountain.

Mr. and Mrs. Geo. Jones were down from Benson Lookout a little while Monday evening calling on the J. O. Libels.

The Will Dippolds enjoyed a day's visit Sunday with Mr. and Mrs. Bunyon McKee at their Rainier home.

Lawrence Jepson was a Portland business visitor last Thursday.

Mrs. C. L. Waddell entertained her sister and family from Walla Walla, Washington, over the week end.

Mrs. Chas. Hanson was a Clatskanie visitor Friday with LaVern.

Mrs. Austin Dowling and son were in Clatskanie Friday.

Miss Priscilla Hansen and Miss Ford, the former from Portland and the latter from California, spent the week end at the Chas. Hansen home.

Mrs. Wm Bridgers was a Portland visitor Thursday.

Scientists have reached the conclusion through astronomical, geological and chemical study that the earth's hard crust was formed not less than 1,600,000,000 years ago.

### Bulletin Tells About Rat Trap

A homemade rat trap, built on an entirely different principle from conventional types, is described in a circular of information No. 385 issued by the O.S.C. experiment station. The original model was built by E. V. Lindros, carpenter in the college physical plant shops, from his memory of one used effectively in his native Finland.

The trap resembles a shallow box open on all four sides, but containing a "trigger slat" in the bottom which releases a crush-

ing weight from above when it is touched by the rat. The fact that the rat can see that the box is open all around seems to make him less wary of entering to get the bait placed within it.

### Former Residents Visit at Mist

MIST—Austin Dowling is taking his two weeks' vacation from highway duties, beginning this week.

Mr. and Mrs. Wm. Bridgers are entertaining his brother, Dave, and family from Texas. The guests lived here some 25 years ago, and will be remembered by many.

Miss Olga Holmstrom was a Clatskanie visitor Saturday.

Mr. and Mrs. Chas. Sundland were Portland shoppers Saturday. Sunday dinner guests of Mrs. Jane Carter were Mr. and Mrs. Wilbur Tichnor and children of Clatskanie.

Will Dippold received word that his oldest son, Bill, had sailed for the island of Guam and plans to send for his family. He is to stay on the island one year.

The Watkins dealer, Mr. Gregory was around last week on one of his trips.

The Austin Dowlings are tearing down their garage and moving it up on the hill beside the house.

Mr. and Mrs. Francis Burnham and children were down from Portland Sunday visiting Mrs. Burnham's parents, the J. O. Libels. They came down to take in the old times ball game at Clatskanie. Jackie returned home with them. He has been spending the summer with his grandparents.

Mr. and Mrs. L. E. McGee were down from Vernonia Thursday shopping in the village.

### Protect Seedlings from Fire!

Seedlings and junior forests are just as important to us as the "tall timber." Actually, they are busy factories producing wood . . . providing thousands of jobs . . . making myriads of things we need, from houses to note-paper. Forest operators can grow trees only with your help. Protect growing trees from fire!
