Gas Use Reaches All-time High

New all-time high records were set in Oregon gasoline use during the month of August, it has been announced by Robert S. Farrell, Jr., secretary of state.

During the first eight months of this year Oregon motorists rolled up almost three billion highway miles. This far outdistances the previous record for the eight month period set in 1941, despite the shortage of new automobiles, August alone accounted for sales of about 40 million gallons of gasoline, a new one-month high.

The sale of motor fuels so far this year has netted the state \$10,820,000 in tax revenues.

"The shortage of new passenger cars shouldn't mislead drivers into thinking the roads are less crowded than immediately before the war," said Farrell. "The truth is that Oregon vehicle registrations are at a peak; that those vehicles are being driven farther than ever before; and that their average speed is the highest on record."

34 Die by Auto Wrecks in Sept.

Thirty-four people were killed in Oregon auto wrecks during September, it has been disclosed by Robert S. Farrell, Jr., secretary of state.

Two out of three of these traffic deaths took place outside any city or town, continuing the heavy incidence of rural locations in fatal wrecks. An unusually high percentage of the dead were victims of railroad crossing accidents.

"Thirty-four dead is a sharp decline from August's toll of 46," said Farrell, "but we won't know just how much progress is being made in Oregon highway safety until mileage figures for the month have been totaled."

Pedestrian accidents claimed more lives than any other single type. Eight people were killed in wrecks in which no other moving object was involved.

A scuttled World War I German battleship was raised and towed upside down for 260 miles from Scapa Flow to the Firth of Clyde.

Who Gets Off Easiest— Men or Women?

Maybe you saw that poll on who has the easiest life—men or women? Of course, the men voted that the women did, and the women vice versa.

It would be the same in our town—take any family. Thad Phibbs envies his Missus spending the day at home, with no hot office to attend to. And Sue envies Thad his luncheons with the boys; and his evening glass of beer with friends (while she cleans up the dishes in the kitchen).

Of course, none of it goes very

deep. Thad knows way deep down that the Missus has plenty of work running a house; and Sue knows Thad's friendly glass of beer is well-deserved relaxation after a long hard day's work.

From where I sit, most husbands and wives may grumble now and then—but they know in their hearts it's a case of live and let live, give and take, that comes out pretty even in the end.
