MISCELLANEOUS

JOIN A FAMOUS FIGHTING DIVISION
The famous 7th Infantry Division, now guarding the peace in Korea, has opened its ranks to hand-picked, keen young men capable of meeting its high standards.

First to recapture American territory from the Japanese—heroes of battles on Attu, KwaJalein, Leyte and Okinawa—the "Hourglass" 7th offers the right kind of man a chance to join a top outfit. A three-year enlistment for service in the Far East will enable you to pick the 7th—and to join it overseas after initial training in the U. S. A Private starts at \$90 a month (overseas pay), with plenty of opportunity for advancement. Many other advantages make this well worth discussing with your nearest U. S. Army Recruiting Station.

1946 Fires Near Low Point--Rogers

Oregon's citizens won high praise from State Forester N.S. Rogers for outstanding cooperation in the state's fire prevention program which has kept forest fires to a gratifying low for the 1946 season, both in acreage burned and in number of man-caused fires.

"Due very largely to the efforts of the Keep Oregon Green association which has conducted an intensive state wide educational campaign to prevent forest fires, there were only 516 man-caused blazes in protected forest lands this season," the state forester pointed out.

"By far the most encouraging part of our preliminary 1946 estimates is the extremely small amount of forest burned, only 8,459 acres on private, state, and county lands," the state official disclosed. "Only in 1942 was this record exceeded and then we lost 7,163 acres and had 424 man-caused fires."

Forester Rogers pointed out that there had been a steady decline in both the number of fires caused by carelessness and in the area of land burned over since 1940 when the Keep Oregon Green Association first undertook its program of prevention of fires.

In 1945 the total area burned jumped as the third re-burning of the blackened Tillamook stump patch covered over 200,000 acres, and in 1943 when careless fern burners set fire to more than 25,000 acres of fern-covered junior forest land where young seedlings were getting a start. Worst fire of the 1946 season was in Douglas county and covered 1500 acres.

GRANGERS SHAPE THE PATTERN of OREGON'S DEVELOPMENT

OREGON'S CANNING INDUSTRY helps make Americans the best fed people on earth.

The canning industry—supplied by thousands of Grangers—also helps Oregon business. Last year, for example, the pack of 9,885,101 cases of vegetables, fruits and berries may not have been worth quite its weight in gold... but it meant a lot of money for distribution among Oregonians.

This building of healthier people and better business through sound, stable agriculture is a long-standing objective of 30,000 farmers of vision who make up the Oregon State Grange. That's why the Grange policy will continue to be one that shapes the pattern of Oregon's future development.
