

5000-acre Unit Of Camp Offered

The first unit of Camp Adair, comprising approximately 5,000 acres, is offered for sale by the federal farm mortgage corporation through the facilities of the Federal Land Bank of Spokane, R.E. Brown, president, announced last week.

Located 10 miles north of Corvallis, the 5,000 acres is part of the 50,000-acre project assigned to the corporation for disposal. Additional blocks will be offered for sale during coming months. The 5,000 acres in the initial block are divided into approximately 50 farm units.

The land will be sold subject to the following priorities: Government agencies, state and local governments, former owners, former tenant-operators, veterans, owner-operators and non-profit institutions. The general public, as non-priority holders, also may submit bids during the 90-day

period, Nov. 7-Feb. 5

Further information may be obtained by contacting T. F. White man, project manager, Camp Adair, Ore., or by writing him in care of Box No. 622, Corvallis, Oregon.

Animal Pelts To Bring Less

Advance information indicates that trappers will receive less this year for pelts of fur-bearing animals. Muskrats are reported to be off 20 to 30 percent, mink 30 percent, and marten 25 percent. Animals with long fur such as coyotes, bobcats, raccoon and skunks will be very hard to sell as most warehouses already are loaded with them and about the only dealers who will be in the market for such pelts will be those with available storage facilities. It is realized that election years frequently affect the fur market and it is possible that with the election over there will be more activity on the exchanges.

HOW TO ROAST 1/2 TURKEYS

Half a turkey is not only better than none, but you may even consider it better than a whole one after these simple ways of roasting it are followed!

BUYING HINTS: Allow one pound for each person. Have head and feet removed.

PREPARING FOR ROASTING: Remove pinfeathers and coarse feathers from wing tips with strawberry hullers, tweezers or paring knife. Singe off any remaining hair. Remove oil sac by making a deep wedge-shaped cut in tail. Thoroughly clean body cavity, saving giblets for gravy. Cut off neck inside skin close to body. Scrub outer skin with brush and warm water. Rinse, inside and out with cold water; pat dry with paper towel or clean absorbent cloth. Rub salt (1/4 teaspoon per pound) into body cavity. Skewer leg and wing to body and skin to the meat on the edge of breast bone to prevent shrinking of skin and to protect breast meat. Simmer neck with giblets for gravy.

STUFFING: Place well-greased double thickness of waxed paper on rack in shallow roasting pan. Allow 5 cups favorite dressing for 10-pound half, place mound of dressing on paper; place turkey half over it, cut side down.

ROASTING: Brush turkey with melted turkey fat or shortening and roast in a slow oven (325° F.) 20 to 25 minutes for 6 to 9-pound half and 18 to 20 minutes for 10 to 12-pound half. (Add 30 minutes to roasting time if turkey is taken directly from refrigerator.) Baste occasionally with 1/4 cup melted turkey fat or shortening in 1 cup hot water, gently spooning it over top of turkey.

GREASED CLOTH METHOD: Cover turkey with a cloth dipped in melted turkey fat or shortening. Use 3 or 4 thicknesses of cheesecloth or 1 of muslin. If cloth becomes dry, moisten with drippings from roasting pan.

Length of roasting time actually depends on individual turkey. Smaller turkeys take longer per pound. Be careful not to overcook.
