Law Extends Pay Deadline

Armed forces mustering - out pay may still be collected by eligible world war II veterans discharged before February 15, 1944, who have failed to apply for this benefit, the department of veteran's affairs said this week.

Previously, these persons had only until February 3, 1946, to apply, but recently enacted Public Law 539 extends the deadline to February 3, 1950. This amended section of the mustering-out pay act applies only to those discharged before February of 1944, because every eligible serviceman since that time is assumed to have received the benefit at time of discharge.

The man's service must have been after December 7, 1941. The act provides payments of $300 for overseas service, $200 for more than 60 days' service not outside the United States or Alaska, and $100 for active service of less than 60 days.

Written application and a photostatic copy of discharge should be sent, in case of army veterans, to finance offices, 4735 E. Marginal Way, Seattle. Navy veterans should apply to field branch, Navy Dept., Bureau of Supplies and Accounts, 13th St. and Euclid Ave., Clevland, Ohio. Marine Corps and Coast Guard veterans should write their respective personnel departments at Washington 25, D. C.
