Two Week Hospital Stay Ended; Picnic, Beach Party Enjoyed

MIST — Mr. and Mrs. Chas. Sundland went to Portland Friday, taking Vileda Foster that far on the way to her California

THE EAGLE, VERNONIA, OREGON, THURSDAY, JULY 29, 1948 5

home.

Mrs. L. P. Wikstrom returned home from the Portland General hospital Monday afternoon where she has been for the past two weeks.

A picnic beach party consisting of the families of J. Quirin, Lloyd Garlock and Les Closner took off Saturday morning to spend the week end.

Rumor tells us that Mathews bros. have purchased the late Mollie Wright farm on the Vernonia road.

Fertility Study Issued by OSC

A condensed summary of major soil fertility experiments con-

ducted in the Corvallis area for the past 40 years has been issued as a mimeograph circular of information No. 432 written by Dr. W. L. Powers and C. V. Ruzek of the soils department.

Applicable to similar soils in western Oregon, the report deals with lime and fertilizer requirements, rate and method of applying barnyard manure, value of irrigation and rotation, minor element trials and a number of other topics.

Naval air reserve pilots flew 122,075 man hours in training operations in one month of 1947.

COLD CUTS For Sandwiches

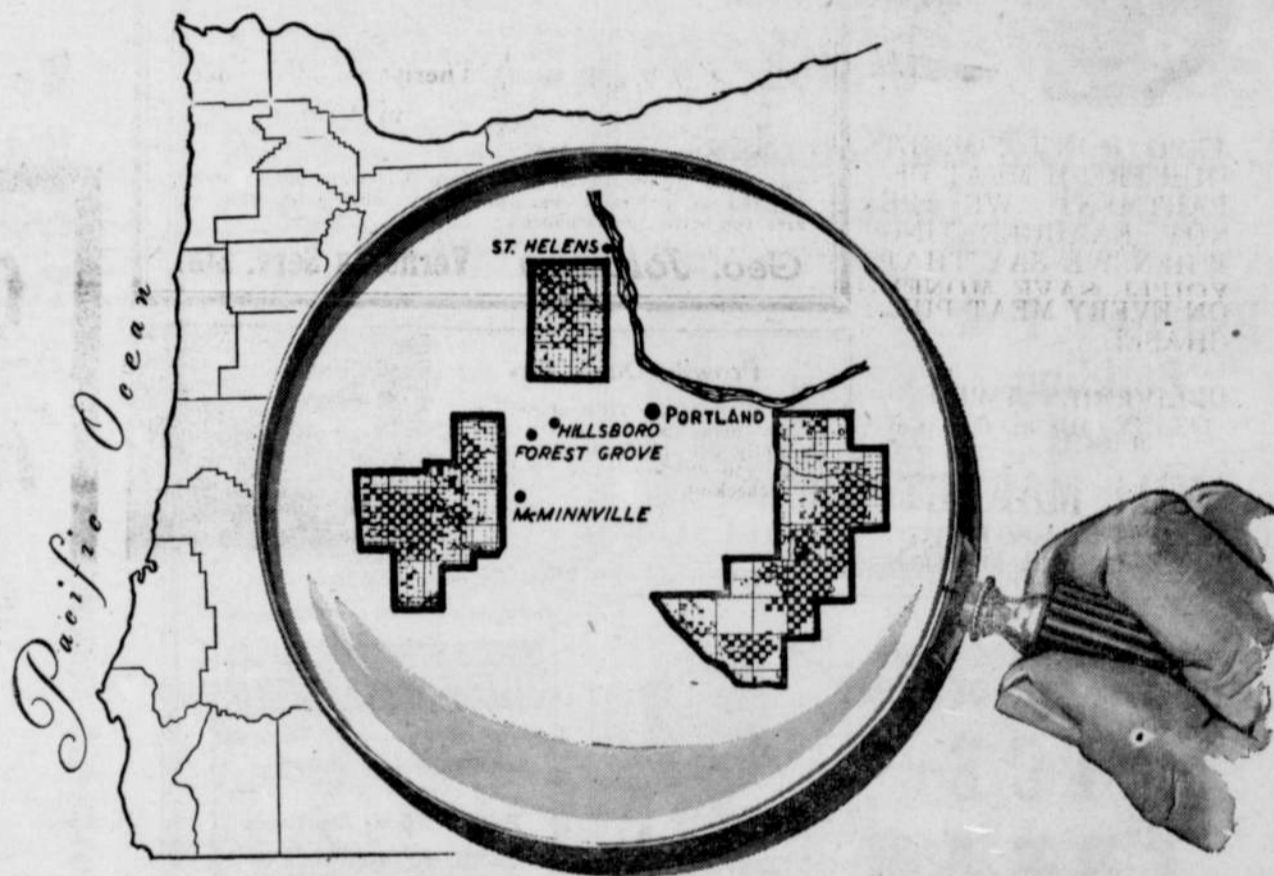

Enliven your summer picnics and ease the job of food preparation by serving sandwiches made of our delicious cold cuts.

Your Community has a PLAN for Perpetual Forest Growth

One look at the map above and you have dots before your eyes. And you can easily see what a "pain-in-the-pocketbook" lumbering could be for operators in your county if they had to "jump" their operations from private land to private land by-passing the Oregon-California revedsted sections. Un-economical, expensive and not even plain horse sense!

But there is a sound plan of operation under the federal law that allows operators to utilize the timber on the revedsted (black) sections. By making a "cooperative agreement" with the Bureau of Land Management and combining their own private lands

under a cooperative unit they can operate profitably and permanently.

Naturally, there is a responsibility on the part of private operators in this contract. They must agree to "log" their own private land on a "sustained yield" basis, rotation of areas according to growth, reseeding and adequate protection.

This responsibility is a vital part of the PLAN to assure your community of perpetual forest growth, of economic lumber supply security. Furthermore, this is the essence of a plan that is now in operation to protect you — your job, your business or profession.

For complete information on your community's perpetual, protective timber plan, write ...
