What these Trees Mean to *You!*

THEY MEAN A LOT! They mean your living and mine because they provide jobs for all of us; they provide school and government support and they will continue to do so for the years to come, if—and that if has a big meaning. It means that all of us must be extremely careful with fire in the woods. Don't throw out any burning material and report any fires immediately. If we do our part, the trees will provide those jobs.
