A lot of people do-but they're wrong!

"Rats Will Desert a Sinking Ship"

It is an ancient belief that rats on shipboard, through premonition and treachery, will desert a ship facing disaster. Rats probably don't have premonitions - and there is no evidence that they are more treacl erous than comparable animals.

"Beware of Food Left in Open Cans"

False! A release by the United States Department of Agriculture states: "It is just as safe to keep canned food in the can it comes in - if the can is cool and covered - as it is to empty the food into another container."

518 Drivers Lose Licenses in Oct.

Some 518 Oregonians lost their drivers licenses through suspensions or revocations during October according to Earl T. Newbry, secretary of state. The figure, one of the highest for the year, came almost on the heels of the department's statement that it was going to "crack down on potential highway killers."

Driving while intoxicated cost more licenses than any other offense, with 302 convictions on this charge. Under Oregon law, a drunken driving conviction makes suspension of driving privileges mandatory, Newbry said. Suspensions were also handed out to 53 drivers for reckless driving and 37 for violation of the basic rule involving speed.

The state department also continued its get tough policy with drivers known as "repeaters." Eleven licenses were suspended because of repeated traffic violation convictions or accidents. In addition, the department contacted 180 other repeaters during the month.

Other suspensions came on less serious driving charges or discretionary action, usually involving misrepresentation on the part of applicants for drivers licenses.

Later in the evening Mr. and Mrs. Eric Carlson and son, Jack, of Garibaldi drove down and took the Mesdames Kirkbride home with them.
