From where I sit... by Joe Marsh

As a Matter of Fact...

Out of all the newspaper and magazine columns I read, the ones I enjoy most are those that pack in a whole lot of facts—unrelated facts, but each one an interesting bit of information in itself.

These columns go something like this: "Did you know that humpback whales are addicted to snoring? That bees have been bred with red, brown, and buff-color eyes?"

"Did you know that lead can be converted to gold—at a cost of \$1,000,000 an ounce? That a 555-pound fat girl went on a diet and lost 401 pounds in 12 months? That a chrysanthemum has been developed that smells like a violet?"

From where I sit, maybe I'm a kind of "Johnny-one-note." My own columns always seem to revolve around one idea—a plea for us to make sure we respect the other fellow's rights—like the right to vote for your own choice or the right to enjoy a glass of beer now and then. I may not be in style, but I believe my one fact is worth repeating—and remembering!
