

By Marvin Kamholz

March 15 is a date on the calendar. It was also the deadline for payment of the annual contribution to Uncle Sam as all those people who are not subject to withholding from wage or salary checks are well aware. The fact that the 15th this year was a Sunday just added another day to the final time for payment for which those who wait until the last minute.

Most people believe taxes are too high, not only the amount of the income taxes they pay, but the taxes that are hidden in the prices paid for merchandise.

They are correct. Americans payed more for taxes last year than they did for food and cloth. ing combined. Figures show in 1951 that total federal, state and local taxes, direct and hidden, came to \$84,600,000,000. In the same year total food and clothing purchases amounted to \$81,-000,000,000.

That adds up to the fact that the tax load is the largest single item of expense to millions of families. The danger point to a nation's strength is considered as having been reached when taxes take 25 per cent of the national income. That point has been left behind because taxes take almost 33 per cent now.

People are becoming more and more aware that the check or money order they make out for their income tax payment is far from the total amount they pay for government. That is just one payment. The other payments are made when an automobile, a loaf of bread, a pair of shoes, a show ticket or any one of thousands of other purchases are made. The tax is hidden in the price paid and goes to the tax collector.

Drastic reduction of government spending, especially wasteful and unncessary spending, will reduce the tax bill. For our money that reduction cannot come too soon!

We thought the question of daylight saving was settled when Oregon voted for standard time at the last election. The results of balloting on this measure indicated decisively how the people considered the summer time clock change that in the past has caused confusion.

Apparently some people in Portland want to be contrary regardless of the will of the majority, by adopting daylight saving time next summer anyway, either by changing the clock or having businesses open and close an hour earlier. Such a procedure has been suggested.

However, thank goodness, a recent poll by Dan E. Clark II and associates indicate most Portland people favor abiding by the new law to keep standard time, The finding of the survey indicated the following percentages: adopt daylight saving, 34.6%; go along with will of majority, 63.3% and undecided, 2.1%.

May this end the matter once and for all.

Some wearing of the green was in evidence Tuesday, St. Patrick's day, but how many people know that living in Vernonia is a fullblooded Irishman? He is Jack Barry, former operator of the taxi service, and he faithfully observed March 17 by sporting a green tie.

Change of Home Made to Here

RIVERVIEW - Sunday visitors at the Robert Wyckoff home were Mr. and Mrs. Robert Gatchett and children and Joe Colony of Millwaukie and Charlotte Welty of Portland.

Thomas McLeod of Kent Oregon came recently to make his home with his daughter and fam-

ily, Mr. and Mrs. Fred Hunt. Mr. and Mrs. Joy Bell of Longview and Miss Kathy Cowie of Castle Rock came Sunday for a visit at the home of Mr. and Mrs. Robert Young. The Bells returned to their home that evening, but Miss Cowie is making a longer visit.

Residence Made In New Home

NATAL - Mr. and Mrs. Buck Garman and family, who formerly resided at Birkenfeld have moved to the Clyde Johnson place above Oblacks, that they recently purchased.
