

Lions Plan for Project at Pool

A project that will provide, when completed, an improvement to the facilities at the city park swimming pool was decided upon Monday evening at the regular weekly meeting of the Vernonia Lions club.

Club members heard the proposal of its project committee headed by George A. Remnant, that cement steps be constructed from the street level to the beach at the pool to replace the gravel incline.

The project plan also calls for posts and iron railing at the sides of the steps. Jack Nance was charged with the job of estimating the cost of the proposed work and supervising the construction.

According to plan, the Tower of Babel was to be high enough to reach Heaven.

THIS 36-pound Chinook was caught last Thursday in the Trask by Les Galloway, using a 27-pound test wire leader. He played the fish over an hour to make the catch. Photo made at the fish was weighed in at Mill Market and Lockers.
