## New V8, Complete Re-styling Mark Chevrolets

Chevrolet's announcement of a complete styling transformation in 1955 models is verified by this view of the Bel Air sport coupe. Re-engineered from the tires up, the new models offer improvements in every phase of motoring. Power, suspensions, steering, visibility, comfort, safety have all been advanced in what the company credits as the most sensational model in its history. A new V8 engine of 162 horsepower is a feature. The luxurious two-toned interiors are color-keyed with the exterior. The windshield sweeps gracefully around to vertical corner pillars giving greater visibility.

STILL A "BEST VALUE" FOR YOU

Your telephone is at your service day or night, in good weather or bad, every single day of the year. Today you can call more people and more people can call you than ever before. Your telephone helps make life more profitable and more enjoyable for you.

Costs of providing you this improved telephone service have increased rapidly in the past few years. Our annual payroll has risen from a million dollars per year at the close of World War II to over 5 million dollars a year today. The actual cost of our plant in service has risen from less than 8 million dollars at the end of 1945 to over 25 million dollars today. This year alone we are spending over 6 million dollars to improve our facilities and to make more telephones available for more people.

Reluctantly, we have found it necessary to request modest increases in telephone rates. Without these increases we would be unable to continue our improvement and expansion programs. But dollar for dollar, your telephone still is one of your "best values" for your money. We repeat again our pledge to provide you with the finest possible telephone service at the lowest possible cost.
