

Band Achieves II Rating in County Competition; Uniform Lack Noted

The Vernonia high school band received a II rating in the band festival and competition at Scappoose last Saturday. The band judges were John Stein, head of the music department at Portland State and formerly director of bands at the University of Oregon for 21 years; Harold Jeans, director of bands Grant high

school whose band this year was invited and participated in the Rose Bowl parade at Pasadena and Robert Cairns head of the instrumental music department at Lewis and Clark college in Portland.

Vernonia, St. Helens and Scappoose were the only bands to play for an official rating. Clatskanie

and Rainier bands played for criticisms only. The contest was not to judge which band in the county was the best, but rather a contest between the band and the music required by the state to be played.

One of the outstanding criticisms concerning this band was the lack of uniforms for the ep-

pire group. One judge stated on his adjudication sheet, "after working so hard to learn to play their instruments it is too bad they cannot be properly uniformed."

The Vernonia Loggers band will compete in another contest of this type April 29 at Seaside in competition with bands from Tillamook, Seaside, Astoria, War-

PTA Clinic To Add Ear Tests

Mrs. Warren Aldrich, chairman of the PTA health committee, has announced another service to be provided for kindergarten and first grade children at the clinic to be held April 14.

Miss Jean Goodrich, audiometrist from the State Board of Health will be here to conduct hearing tests. A few children with histories of ear difficulty who attend the pre-school clinic will also be given the tests. Reason for the tests is that if hearing loss is discovered early there is better chance for correction.

etrist from the State Board of Health will be here to conduct hearing tests. A few children with histories of ear difficulty who attend the pre-school clinic will also be given the tests. Reason for the tests is that if hearing loss is discovered early there is better chance for correction.
