AUTOMOTIVE FLASHES

DRIVE SAFELY, and keep driving! The week ends of 1955 saw more persons killed and injured on highways than ever before. It wasn't the fault of the road systems; it wasn't the fault of safety education campaigns. It was the fault of pleasure-bent individuals striving to go too far, too fast, for a week end's enjoyment. This fact is determined from records of last year's traffic fatalities and prove the importance of one thing—**DRIVE SAFELY.**

You can do a better job of driving safely with the safety features found on all Dodge and Plymouth cars. Here as some of those features:

Safety rim wheels designed to hold tire to wheel in case of blow-out; an exclusive with Plymouth in the low priced field.

An eight-inch brake pedal with PowerFlite transmission models make it easy to use the left foot for faster response in emergencies.

Windshield that wrap around at both top and bottom allowing full visibility at all times.

Eighty feet of additional low-beam seeing distance along the right side of the road-way by the new sealed beam unit. Light intensity increased five watts for each beam. Glare for oncoming motorist reduced.

Safety doors locks that progressively tighten as car is driven.

Electric windshield wipers give safer vision because they operate at constant speed.

DODGE LEADS IN VALUE

When you go to buy a new truck, you owe it to yourself to stop... look... and think—to think about this, among other things:

How can you possibly know you're getting the best value if you sign up for a new truck without first taking time to stop and look at today's big, husky-muscled DODGE? The answer, obviously, is you can't be sure; you're just hoping you're getting the best buy!

Wouldn't you be wiser to get at least a few facts about DODGE? For instance, such easily proved facts as these—that Dodge trucks give you:

1. Greater gas economy. Dodge's exclusive Chrysler-engineered Power-Dome V-8 engines deliver more miles per gallon, full power on regular gas!
2. Maximum payloads. Dodge trucks are built extra rugged—will haul up to 35% more.
3. Lower upkeep costs. Dodge short-stroke V-8 engines maintain like-new performance far longer than truck engines of standard design.
4. Shortest turning. Dodge sharp turning angle and shorter wheelbase design make parking and wheeling through traffic much easier, save you both time and effort.
5. Rock-bottom prices. Today, many Dodge models cost less than any other make!

Dodge gives you more in other ways, too. So, before you buy, why not get the full Dodge story? Unless you do, we honestly believe you'll end up paying more and getting less.
