TOPICS OF THE TOWN

Mr. and Mrs. R. L. Spencer returned home last Tuesday from California where they had been visiting since December 17. They visited their three children, Ethel at Los Angeles and Elna and Ben at Bakersfield, and other relatives in surrounding areas and reported a wonderful time until January 3 when Mrs. Spencer became ill and almost had pneumonia. She was not able to make the trip home until last week when the doctor allowed her to make the trip by plane. She suffered some backset after arriving home but is improving this week. Mr. and Mrs. Mike Stolen of Forest Grove visited the Spencers Sunday.

Frank Hays returned home Sunday from Tuahly hospital at Hillsboro where he had undergone surgery the previous Thursday.

Forest Rehabilitation Accomplishments Viewed

Nineteen fifty-nine marked the end of the tenth year since the rehabilitation of state owned forest land and especially the Tillamook burn got underway by the state forestry department. It represented the largest project of this nature that had ever been undertaken by any agency in the nation, either state or federal. Accomplishments up to the end of the year included planting 41,347,869 seedlings on 52,792 acres of forest land and in addition the aerial seeding of 69,168 acres. This brings the total area reforested to 105,561 acres, of which around 100,000 acres is in the Tillamook burn.

While tree planting and seeding was going on the state felled 1,282,937 snags as a part of the program designed to keep fires out of the burned areas. Approximately 150 miles of fire corridors were built, a similar mileage of roads constructed and an additional 2000 miles of roads maintained. It is estimated that the huge project is more than half completed.

Census Office Opened at Salem

Establishment of a district office for the 1960 census of population and housing at 1965 Taft street in Salem has been announced by Director Guy E. Rainboth of the census bureau's regional office at Seattle, Washington. Ronald Blundell of Salem will be supervisor of the district office. He will direct a force of 32 crew leaders and 500 census takers in the following counties: Benton, Clackamas, Clatsop, Columbia, Lincoln, Marion, Polk, Tillamook, Washington, and Yamhill.

Taking the 1960 census nationally will require the services of 160,000 enumerators, 10,000 crew leaders, and 400 district supervisors, all temporary workers. The district supervisors, working under the general direction of the permanent regional field directors, are responsible for all phases of the census in their districts. Duties of the district supervisor include the recruiting of the crew leaders, obtaining space for crew leader training, recruiting and training a small office staff, reviewing the completed questionnaires, and direct supervision of the field canvass which begins on April 1.

Prior to the start of the census, all households will receive in the mail an advance census report form, a new census-taking device which is designed to speed up the field canvass and provide more accurate statistics. Distribution of this form, which contains the basic population and housing questions, gives the family a chance to assemble information about each member in advance of the census taker's visit.
