## THE PEOPLE SPEAK . . .

Kennedy's Medical Bill is misnamed. It does NOT cover the cost of a doctor's services. It does NOT cover the surgeon's fees or dental bills. It does NOT pay for medicine used outside of hospital or nursing home. It does NOT cover the cost of preventative medicines. It does NOT cover all hospital bills — the aged would be required to pay \$10 a day for the first nine days and the first \$20 of costs for diagnosis in hospital out-patient clinics and the patient does NOT select the physician to perform the diagnosis. President Kennedy's bill also does NOT cover four and a half million aged who are NOT enrolled in the Social Security System. The bill DOES give the rich a free ride.

We already have the Kerr-Mills Act which takes care of a greater share of the expenses but only for those UNABLE to pay.  
 Lawrence Meisner

## GEMS OF THOUGHT THE PRESENT

Seize the present; trust the future as little as you may. —Horace

Remember that it is only this present, a moment of time, that man lives. —Marcus Aurelius

The future is no more uncertain than the present. —Walt Whitman

The present has a right to govern itself!  
 —Oliver Wendell Holmes

Look upon every day as the whole of life, not merely as a section; and enjoy and improve the present without wishing, through haste, to rush on to another. —Jean Paul Richter

While lying on the sand, Mr. Hudson discovered a tumor on his side which prompted him to see his doctor Monday. It was removed and found to be benign and he returned home that evening and was able to work the following day.
