## Thousands See Horse Events

Columbia county fair horse show and rodeo events drew thousands of people to watch the performances Aug. 23, 24 and 25. The junior horse show was well attended and the riders sped through the events with ease. Ribbons and trophies were given in each event to the Columbia county junior horsemen without a charge for entries. The open horse shows Fri. and Sat. drew a good crowd and the highlight of the day proved to be a new event, ladies cow daubing. Riding from the roping barrier with a paint dipped broom the ladies daubed a cow in some very good time.

Rodeo thrilled the crowd in the grandstand and bleachers and the cowboys exhibited some of the skill that makes rodeo the most exciting and varying sport today. That VanBelle bucking string never failed to try every trick to unseat their riders.

They were successful in nearly all of these efforts too. When the chute gates opened those horses meant to put cowboys in orbit along with the astronauts.

The roping stock from the Deer Island stock ranch was a test of the cowboy's skill along with his strength. Those cows and calves are just what might be called salty. Even the bucking bulls didn't want to cooperate. Riders were off in such a short time the show moved right along.

Winning a trophy saddle for the all-around cowboy was a former resident of Columbia county, Sterling Green, now living in Redmond. This fine saddle was donated by several organizations and businesses in the county. The excellent cooperation the club has had in the past year has helped to make a success of the show and will continue to make other programs do well.

## Limit Upped at Reservoirs

Oregon anglers are advised that in an emergency today, Phil Schneider, state game director, increased the bag limit for trout at McKay and Unity reservoirs in eastern Oregon to 30 fish per day, 60 in possession regardless of size. The emergency order is effective immediately and will remain in force through the remainder of the calendar year.

The bag limit for trout at McKay reservoir located near Pendleton was upped when it was learned that the impoundment is being drawn down to a level that will not support fish life.

Unity reservoir located in Baker county near Hereford will be chemically treated by the game commission this fall. The reservoir is heavily infested with suckers and other undesirable fish.

Dieting: Penalty for exceeding the feed limit.

**WARREN Grange** exhibit captured first place with gold horse shoe in background. Garden tools and garden produce was in attractive display.

## THE PEOPLE SPEAK

To the editor:  
 It seems to me that the fourth Friday in August is early enough for the primary election in the biennial that the U. S. President is not elected, instead of third Friday in May as now.

If you Columbia County voters elect me your State Representative, I will introduce a bill that will move the primary in non-presidential years, to fourth Friday in August, fourteen weeks later than now. That leaves ten weeks or so for an active campaign and everyone will save time and money.

When the talk of holding national presidential conventions later becomes a fact, we can move that primary to a later date.

**DO YOU KNOW WHAT THIS IS . . .**

It's a mortar and pestle. These were originally used by the alchemists hundreds of years ago for the pulverizing of drugs. They became through the course of centuries an accepted symbol of pharmacy. The mortar and pestle are still used today. With us they symbolized the methodical care and accuracy we practice in filling your prescriptions.
