It happened 100 YEARS ago
The oldest incorporated trade association in the country, the United States Brewers Association, was organized in 1862... the same year that

IN OREGON, to protect their frontier against marauding Indians and rebel sympathizers, patriots formed the First Oregon Cavalry. No outfit performed more essential service or displayed more bravery in battle than the Oregon troops. Throughout the state folks toasted their success with foaming steins of beer.

For then, as now, beer was the traditional beverage of moderation—light, sparkling refreshment that adds a touch of Oregon hospitality to any occasion. Folks in Oregon have always enjoyed the good fellowship that goes with every glass.

TODAY, in its centennial year, the United States Brewers Association still works constantly to assure maintenance of high standards of quality and propriety wherever beer and ale are served.
