## Care Asked on Fire Danger

Hunters, with continued dry warm weather forecast for Oregon, your help is needed. When you are hunting in the forests or out on the eastern Oregon range land during this hunting season, and you spot a fire, try to put it out yourself, but if it is too big, get some help. Call your nearest fire warden, forest supervisor or Bureau of Land Management Range manager. Do your bit to keep our forests and range lands good for your enjoyment and for the deer. Help Keep Oregon Green.

Almost every forest area in Oregon will be open for hunting, unless forest fire conditions become too critical. Some of our forests are still mighty dry and deer hunters are being allowed to hunt this year because they have been mighty good sports in late years and have been extra careful with fire. If you see another hunter leave a campfire or flip a cigarette without being sure the fire is out, you are being a good sportsman by telling him. Ask him to be more careful for he is risking a forest fire which could destroy deer food, forests and even the big game animals themselves. Help Keep Oregon Green.

GOLF VIEWS and NEWS  
By Gordon Reed

Ole man weather turned up with some real nice weather for both the golfers and hunters last week end. Many of the golfers and some of the hunters who stopped in for a snack spoke of how beautiful the fall season is with its many colors and bright shadows.

We here at the golf club thoroughly enjoy it too. However, we have missed seeing the deer around the course this fall. We wonder what happened to them? Is it because of the growing number of coyotes, a stray cougar prowling around or just that there are not as many in the area? Our club championship golf tournament is just about over and new names are appearing at the top of the lists of players. We still have two matches to go, which will be played this week to finish the flight matches.

Our ladder tournament which has three golfers as winners (one for each column of players) wound up with the following golfers at the top: Ralph Bergerson, Gordon Reed and our genial druggist, Horace Hertel.

In a playoff Sunday for the club championship between Wayne Thomas, who has been club champion for two years now, and Gordon Reed, the latter won two up after a very interesting and tough match.

The second flight was won by Ralph Bergerson after what I understand was a very hard fought final match between Ralph, our hard working banker, and Horace Hertel, our pill peddler from Main Street.

The third flight was nearing the close Sunday when Al Williams, the "Timber" pro, retired our genial friend, Loel Roberts to the showers with a four up victory. Dan Fletcher now has to play Al in the semi-final, the winner in turn will meet Elmer Pumala, the Clatskanje carpenter, in the final match for the third flight trophy.

The awards banquet will be put on at the Vernonia Golf club Tuesday, October 13 at 7:30 p.m. Bill Horn has the tickets for the chicken dinner which will be served by the club. We understand our president, Wayne Thomas, has a few things planned for the evening. Officers for 1965 will be elected at the meeting.

It looks like next year will see the men's club grow into a very active group at the Vernonia Golf club. We have had many residents outside of the area express an interest in joining the group and participating in our activities.

The matches with outside clubs have been very interesting to many of the players, even though we did not "bring home the bacon". The fun of making the trips and playing with someone besides our own members leaves memories which carry over from year to year.

We put in our final piece of tiling this past week. This 160 feet of tile has been badly needed for years in the gully between No. 3 green and 4 tee. The golfers know how very soggy this area used to get from seepage from under the hill at this point. By putting in this tile which runs down in front of No. 3 green and over to the ditch by the fence we hope we have eliminated this swampy winter spot for all time.

We are now in the process of spraying our greens and liming them to get them through the winter. This will keep the fungus from taking over during our long wet months.

We have a question we would like to ask of the people of the Valley. Maybe someone has an answer. What does the persons who steal the flags from No. 1 and No. 3 greens do with them?

4-H club work is administered by the Cooperative Extension Service and supervised locally by the county extension agents.

If exposed to poison ivy, wash thoroughly several times with warm water and plenty of soap.
