Mr. and Mrs. Clifford White, who retired in March after 17 years in the Vernonia Western Auto store, took their long-planned vacation trip in November and spent a little more than two weeks in the Hawaiian Islands. November 2 they left Portland by jet flight. Their entire tour was planned so they could see the most in the allotted time. They visited four of the islands, and on each, they took tours to see pineapple and sugar cane plantations, the volcanic lava beds, the many beautiful flowers and other things of interest including Pearl Harbor. They were impressed with the friendliness of the people. Weather was perfect with temperatures from 72 to 80 degrees. They flew from the islands to Everett, Washington November 20 to visit their son, Clifford Jr., who brought them home on November 22.

Students Spend Holiday With Relatives Here

BIRKENFELD — Marvin Larson and Gary Johnston returned to college Sunday after spending the Thanksgiving holidays with their folks.

Mrs. Winifred Hult of Horton spent Thanksgiving and the week end here with relatives.

Mr. and Mrs. G. P. Wanstrom were in Portland with their nephew and wife, Mr. and Mrs. Lowell Swanson, for Thanksgiving, then spent the week end with their daughter and grandson, Ione Downs and Steve.

Mr. and Mrs. E. T. Johnston and smaller children took in the auto show at Portland Saturday.

THE PUBLIC WELFARE ?

(Questions about public welfare which are of general interest are answered in this column as a public service. Help with individual problems is available at your county welfare office.)

Does public welfare find adoptive homes for physically handicapped children?

The fact that a child has a physical handicap does not in itself mean he cannot be planned for through adoption. As with all children in permanent custody of the Public Welfare Commission, the agency makes every effort to find the right home to meet that particular child's need. It is not always easy to find adoptive homes for a handicapped child and public welfare welcomes applications from prospective adopting parents who feel that they could accept and love such a child as their own.

I have a chance to earn five or ten dollars a month on odd jobs, would it mean a cut in my old age assistance check?

If you are already on Old Age Assistance and you find a job of this type, the first ten dollars of monthly earnings plus 1/2 of the next forty dollars can be disregarded completely in computing your need for assistance. If you earn more than ten dollars, necessary expenses, such as transportation can be considered in determining how much your grant will be reduced.

I am a college student and would like to become a social worker. Is it true that I can get help with the cost of my graduate education?

If you are employed in public welfare after you complete your undergraduate training, there is a possibility that you might qualify for one of the educational leave grants public welfare provides for its employees to enable them to complete their professional training. If you are not employed by public welfare, you may be able to qualify for a training grant to help meet the expense of your second year of graduate education after you have completed the first year. In either case, you would be required to agree to work in the agency for a specified period of time following completion of your graduate training.

Why do some families get general assistance when there is a special program for aid to dependent children of unemployed parents?

Under Oregon law, persons receiving Unemployment Compensation are not eligible for assistance under the Unemployed Parent Program. Some families who need only temporary help, such as those who expect employment in less than a month's time, can receive emergency General Assistance more quickly than eligibility for Aid to Dependent Children could be established.

State Prepares Forest Seeding

Another big year is expected in reforestation by the state forestry department for the state-owned lands it manages with 11,599 acres scheduled for planting and 2,176 acres for seeding.

A large portion of this area is located in Northwest Oregon where 9,169 acres will be planted and 742 seeded. Much of this is in the Tillamook Burn.

Elsewhere, 1,131 acres will be planted in the Willamette area, with Clackamas, Marion, Linn, Polk, Lincoln, Benton and Lane counties involved.

In the southern part of the state 1,034 acres will be planted in the Elliot State Forest in Coos and Douglas with 1,434 to be seeded, while 40 acres are up for planting near Gledendale in Douglas county.

In accomplishing this objective, a total of 5,478,535 nursery-reared tree seedlings will be used. And in addition, 1,734 pounds of forest tree seed will be applied in aerial and hand seeding.

Arrangements have been made already for planting crews.
