"YOUR U. S. BANKER HAS THE ANSWER"

SHOULD I HAVE A SAFE DEPOSIT BOX?

The above question compares with asking, "should I have fire and theft insurance" . . . with one important exception. A safe deposit box costs less than any other form of comparable protection. Rental for an entire year averages little more than one penny a day. What belongs in a safe deposit box? Anything of a small but valuable nature—and all important papers. Deeds, titles, birth certificates, insurance policies, wills and diplomas—just to name a few. Boxes are available in several sizes. Incidentally, each U. S. Bank safe deposit box has double lock protection. It requires your key and the bank's key operating jointly to open the box.

Ask about low-cost safe deposit protection the next time you visit the bank—another service of full service U. S. National.
