U.S. Bank Year End Figures Indicate New High for 1965

U. S. National Bank of Oregon continued to remain ahead of the state's prospering economy during 1965, President E.J. Kolar has revealed.

Year end figures for 1965 released by Kolar show that the home owned statewide institution reached new highs in loans, deposits, total resources and net operating earnings after taxes.

Deposits on December 31, 1965 increased 9.8 per cent over the same date the previous year through the continued expansion and natural growth in the state and without any mergers. During 1965 additional deposits of \$107,295,406 were recorded for a year end total of \$1,203,565,648.

Kolar pointed out that the demand for money also continued at a strong pace and that U. S. National's expanded loan activity resulted in a 12.0 per cent increase on December 31, 1965, when compared to the same date the previous year. Loans increased \$76,175,540 to a year end total of \$711,642,131.

Following an exceptionally good year in 1964, net operating earnings after taxes for 1965 showed an increase of \$47,952, raising earnings per share to \$2.63 for the 3,775,000 shares outstanding which are 70 per cent owned by Oregonians.

The Vernonia Branch of the U. S. National recorded total deposits of \$1,723,440.96 according to B. R. Pilger, Manager. Loans and discounts for the local branch stood at \$372,446.21.

Invitation Issued for Golden Anniversary

The event has been arranged by their children, Mr. and Mrs. Sam S. Hearing, Mr. and Mrs. Clair Ewart and Mr. and Mrs. Wilfred Holce and their families who extend an invitation to friends to attend.

During 1965 U. S. National opened its 100th office and total resources climbed to \$1,324,290,999 on December 31, an increase of 9.2 over the same date in 1964. Capital funds, which were \$88,564,783 on December 31, 1964 also showed an increase of \$2,244,903 to \$90,809,686.

Kolar said that a statewide banks opportunity and obligation is to further its state's growth and that he is pleased that U. S. National played a major role in this growth during 1965. He added that the outlook for 1966 is also favorable and that Oregon's prosperity should continue at a high pace.
